

**A SHAWNEE HILLS RECREATION ASSOCIATION** was created during a Tourist Industry workshop at Southern Illinois University Tuesday. Officers and directors of the new six-county organization are shown talking to Robert Shaidnagle, center, executive secretary of the Lake of the Ozarks association, who was principal speaker on the workshop program. With him are (left to right): William H. Farley, Harrisburg, secretary-treasurer; Harry Porter, Elizabethtown; George Scherer, Shawneetown, president; Sen. Glen O. Jones, Harrisburg; A. H. Martin, Goreville, and Ray G. Mittendorf, Metropolis. At the workshop, a 31-county group was also established to promote tourist business throughout southern Illinois. In the Shawnee Hill's area are Massac, Saline, Pope, Johnson, Gallatin, and Hardin Counties. (SIU News Photo)

## About Town And Country

By TIMOTHEUS T.

### Camping Sites Suggested to Attract Tourists

OL' TIMMO went over to Carbondale Tuesday in the company of Senator Glen O. Jones and wrote up a couple of stories on what happened, which appeared in Wednesday's Daily Register.

But things went on and on, starting at 12 noon and continuing into the night, and there were a number of things brought up that are worthy of mention that did not get into yesterday's news columns.

One item brought up a couple of times concerned camping out in tents. Despite the number of trailers and cabins and other more elaborate places in the recreation areas, both R. J. Shaidnagle, executive director of the Lake of the Ozarks association, and Dr. William Freeberg of the Southern Illinois University faculty brought out that there's an upswing in families camping out in these spots.

Mr. Shaidnagle said that in the last three years there has been a trend to entire families roughing it by living in tents.

"These people are looking to places to rough it with some conveniences at hand," he stated. "I suggest the setting up of approved camp sites, with a well dug for water, shower houses and outdoor fire places."

Dr. Freeberg, in one of the workshop sessions, pointed to the rise of tent camping and said this is one part of the tourist-trade program that will not have to be a long-range affair.

He remarked that he, his wife and two children went to Kentucky lake a week or two ago to do some tent camping and that the site was full of tenters when they arrived. After some looking, they found a small spot on the edge where they could pitch their tent.

Ray G. Mittendorf of Metropolis, vice president of the new Shawnee Hills Recreation area, said that Fort Massac is fast becoming a good place to camp and suggested clearing out a lot more territory to make more room for campers.

SOMETHING I HAD NOT thought of was the possibility of summer stock in the recreation areas. The head of the dramatics department at SIU told of organizing a group which went into the Missouri Ozarks and presented "Shepherd of the Hills."

It couldn't be done here yet, because things are not organized to bring in sufficient tourists, but in Missouri tourists filled the place every night.

ALSO BROUGHT OUT, by William Lewis of the SIU faculty, was that southern Illinois has the right type of soil and the right topography to build lakes.

He said also that our area is as good as any for the development of bass, bluegill and crappie fishing. Lewis declared that there is not too much that can be done up-state to produce good fishing but that it most certainly can be developed down here to attract fishermen into the area.

HARRY PORTER of Elizabethtown remarked that bass fishing on the Ohio in October and November is "the best bass fishing in the world" and this most certainly could be promoted.

## Opposition To NYC Plea

### Petitions from 18 Communities Filed Before ICC

SPRINGFIELD, Ill.—The New York Central Railroad today ran into heavy opposition as it resumed efforts to obtain Illinois Commerce Commission authority to discontinue two trains connecting Chicago and southern Illinois.

Springfield attorney Frank M. Pfeifer filed an intervening petition for some 18 communities served by the two trains, Nos. 462 and 463, operating between Chicago, Danville and Harrisburg. A portion of the route runs through Indiana, north of Danville.

The communities, which formed a New York Central Users Committee to oppose the discontinuance of the service, charged that "the discontinuance of the trains is not necessary . . . and would be a substantial and serious detriment, resulting in irreparable injury to the various communities served by the railroad."

Claim Service Improving

"It can be shown," the petition charged, "that passenger service is improving along this line as in

other communities . . . and the service would be even more substantially improved if proper and reasonable service was offered by the company."

Both trains make one round trip daily between Harrisburg and Chicago.

However, William R. Main, New York, director of passenger service for the railroad, testified that the two trains sustained an "above the rail" operating loss of \$44,471 in 1955, and \$36,330 during the first four months of 1956.

Fixed costs make the total losses much higher, Main said.

He said the NYC had begun to use diesel power on the route, re-established Pullman service, and conducted an extensive advertising campaign to try to build up demand for passenger service.

Other railroad witnesses outlined alternate passenger, freight, express and mail service which would be available from other railroads, bus and truck lines if the two trains are discontinued.

The Commerce Commission in April, 1954, denied a petition to discontinue the two trains, but a month later granted the railroad a rehearing provided the company

MURPHYSBORO, Ill.—A Murphysboro teen-ager was killed Wednesday night in a traffic accident south of the junction of Ill. 3 and 144.

He was Phillip Hart, 16, a passenger in a car driven by Gilbert Pulcher, Murphysboro. Pulcher and two other passengers in the car, Jeanie Stevens, 15, and Carol McCoskey, 16, both of Murphysboro, were injured and hospitalized.

State police said the car ran off the left side of the road and overturned.

Register Salutes  
Dairy Industry

Today's edition of The Daily Register is a salute to the dairy industry in observance of June as dairy month.

The American Dairy association emphasizes the importance of milk and cheese and all dairy products to the diet and the place the industry holds in this nation to farmers and consumers.

Expansion plans to nearly double the size of the Kresge store at 19 North Main street were announced today by Charles H. Shingler, store manager.

Kresge's will begin work immediately to erect a new one-story and basement building addition on space directly behind the store, he said.

Conversion of the entire Kresge

store to a check-out operation will be a major feature of the modernization.

General contract for work involved was awarded today to H. E. Mitchell Construction Co.

Kresge's will remain open for business as usual throughout the construction period which is expected to extend into late autumn.

Expansion will increase the total area to over 21,000 square feet.

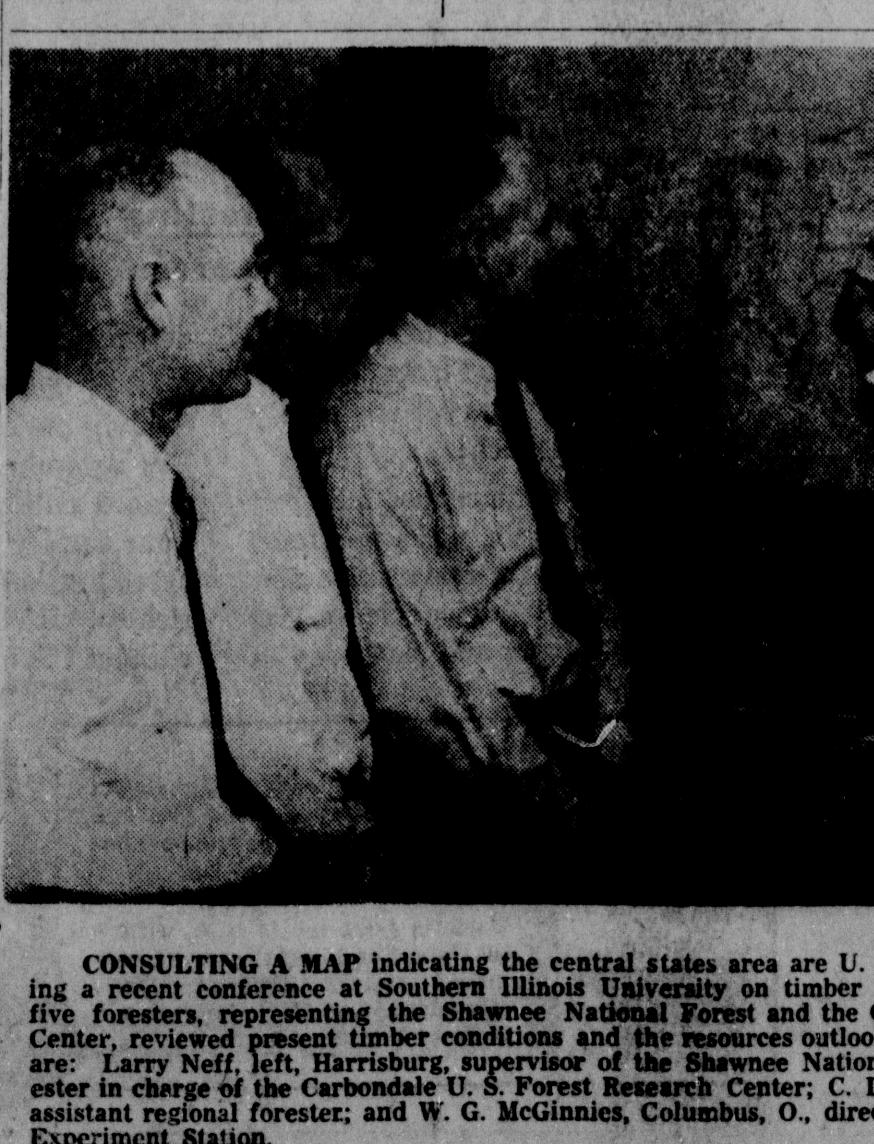

With erection of the new addition, removal of interior walls will give Kresge's a huge sales room with up-to-the-minute fixtures and treatments. Super-bright fluorescent lights in continuous rows will make the variety store one of the best illuminated in Harrisburg.

The present snack bar between the front entrances will be relocated to make way for check-out stations that will mark Kresge's new shopping arrangement. Cashiers will be trained to move traffic swiftly and efficiently through the stations.

New-type counters will be installed and will be designed to make self-service easy and speedy for the shopper. Salespeople will be out in the aisles to give assistance or advice.

The store office, now located at the rear of the store, will be moved to the rear of the addition.

James A. Clarry will represent the Kresge company as construction superintendent on the job. Plans for the addition and alterations were drawn by the Kresge design division under the direction of Emil G. Jehle, staff architect.

CONSULTING A MAP indicating the central states area are U. S. Forest Service officials attending a recent conference at Southern Illinois University on timber resources of the nation. Thirty-five foresters, representing the Shawnee National Forest and the Carbondale U. S. Forest Research Center, reviewed present timber conditions and the resources outlook for the next half century. Shown are: Larry Neff, left, Harrisburg, supervisor of the Shawnee National Forest; Richard D. Lane, forester in charge of the Carbondale U. S. Forest Research Center; C. L. Van Giesen, Milwaukee, Wis., assistant regional forester; and W. G. McGinnies, Columbus, O., director of the Central States Forest Experiment Station. (SIU News Photo)

### Youth Dies of Injuries Received After Trading Horses with Girl

CHICAGO, Ill.—A 19-year-old West Virginia youth, who gallantly traded horses with a girl having trouble with her mount, died Wednesday of injuries received when the horse threw him.

Doctors said Herbert Lively of Landville, W. Va., damaged his brain in the fall. Even if he had lived, they said, he never would have regained his full mental faculties.

Lively was injured after he swapped horses with Miss Jeani Ward, 20, of Chicago, at Lincoln Park here May 19.

### Name Juergens To Federal Judge Vacancy

#### Chester Man is Nominated to Former Wham Post

President Dwight Eisenhower today submitted to the U. S. Senate the name of William G. Juergens of Chester, Ill., to fill the federal judgeship vacancy created by the retirement of Federal Judge Fred Wham of Centralia on March 3.

The submission of Juergens' name was announced from Washington by U. S. Senator Everett McKinley Dirksen of Illinois. Juergens is up for the judgeship in the U. S. District court for the Eastern district of Illinois.

Judge Juergens was born in Steeleville, Randolph County, Illinois, Sept. 7, 1904. He was graduated from Carthage college, Carthage, Ill., in 1925 and took his law degree at the University of Michigan in 1928. He was admitted to practice law in Illinois in October of 1928 and was a general practitioner until elected Randolph county judge, a post he held for 12 years.

He was elected judge of the Third Judicial circuit in Illinois in 1951.

He is married and the father of two children. He is a member of the First Presbyterian church in Chester, and of the Masonic and Elks lodges and the Lions club. For the past ten years he served as member of the Advisory board of the Institute for Juvenile Research in the State of Illinois.

Judge Juergens worked his way through college and law school by waiting on tables and checking in the college cafeteria and spending his summer months working at the International shoe factory in Chester.

Judge Juergens worked his way through college and law school by waiting on tables and checking in the college cafeteria and spending his summer months working at the International shoe factory in Chester.

The chance of listening to lecturers who are specialized in nuclear study and of experimenting with electronic equipment should prove quite beneficial in classroom work next year.

# Social and Personal Items

Miss Jane Felt to  
Wed. Gary L. Thomas

Miss Jane Felt

Mr. and Mrs. Ernest Felt, Stonefort, announce the forthcoming marriage of their daughter, Lucretia Jane, to Gary Lee Thomas, son of Mr. and Mrs. Garfield R. Thomas, Carrier Mills.

The wedding will take place at the First Methodist church in Carrier Mills, Saturday, June 16, at 8 p. m. Friends of both families are invited.

Both Jane and Gary are graduates of Carrier Mills Community high school with the class of '53. Jane is now employed at the Harrisburg Manufacturing Co., and Gary after graduating from high school attended one year at Southern Illinois university and is now employed at the A&P store in Harrisburg.

## Calendar Of Meetings

The Soldiers for Jesus Sunday school class of the Social Brethren church will meet Friday at 6:15 p. m. at Karel park for a potluck supper. Each member is to bring food and table service for her family.

Liberty Home Bureau will meet Friday at 2 p. m. at the home of Mrs. Eugene Hughes.

Saline Encampment No. 178 will hold its regular meeting Friday at 7:30 p. m. Work in the Golden Rule degree. Earl Milligan, C. P.

There will be a stated meeting of the Rising Star chapter No. 717 of the Eastern Star of Carrier Mills Friday at 7 p. m. Blossom Stallions, W. M.

## Hospital Notes

### Harrisburg Hospital

Admitted:

Mrs. Kelley Gulley, RFD 3, Galatia.

Mrs. William Prusaczyk, RFD 1, Harrisburg.

Luther Miller, RFD 2, Harrisburg.

## Births

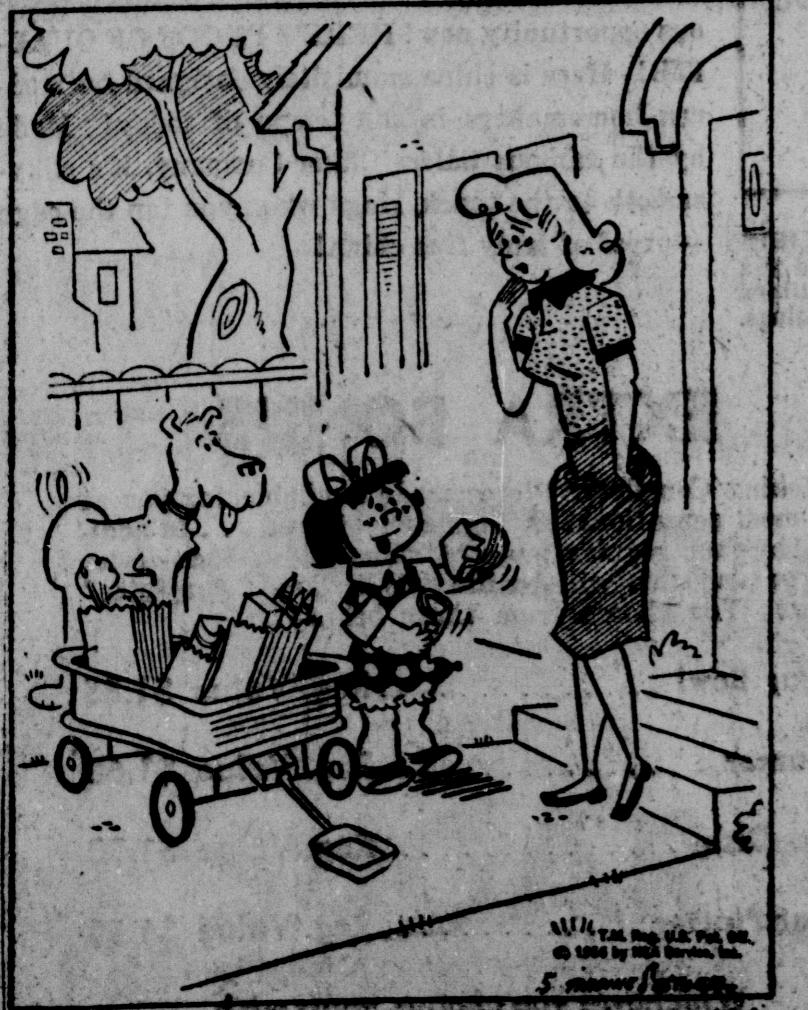

To Mr. and Mrs. Kelley Gulley, RFD 3, Galatia, a boy named Kelley Dale, weighing eight pounds, two ounces, born June 6 at the Harrisburg hospital. The mother is the former Frieda Ann Karnes.

To Mr. and Mrs. Doyle Webb of Joliet, a four pound baby girl named Barbara June. The mother is the former Carolyn Sue Gibson of Carrier Mills.

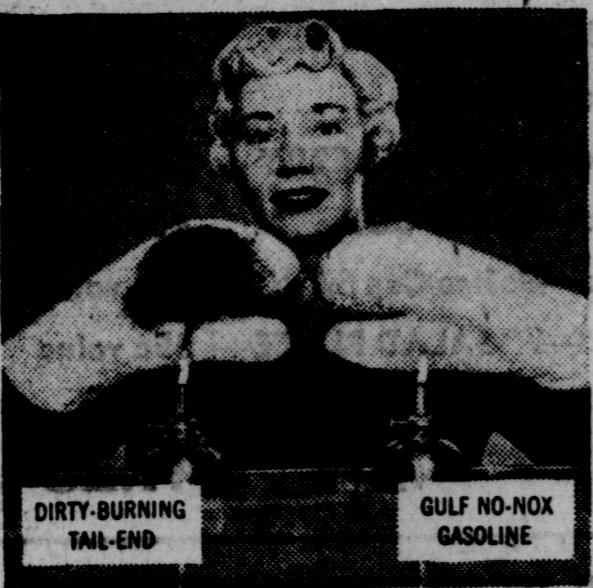

### Lighter Than It Looks

The seemingly heavy, unwieldy hill of the hornbill actually is quite light. The outer walls are thin, but strong, and the insides are a network of delicate, bony fibers.

## Picture Future Retirement a Treat, No Retreat

### Britain to Explode H-Bomb Next Year

LONDON (UPI) — Britain announced today it will explode its first hydrogen bomb next year.

The decision was announced by Prime Minister Sir Anthony Eden in a statement to the House of Commons.

Britain previously has disclosed that it is building the hydrogen bomb, but a British H-bomb never has been tested in an explosion. Only the United States and the Soviet Union have test-exploited H-bombs.

ure would include income from all sources, he said.

Currently the "average" income of retired workers is about \$180 a month—with many getting much less.

Tibbitts said more and more younger persons are contributing to private pension plans, buying their own homes and otherwise preparing for retirement.

## House Group Hits

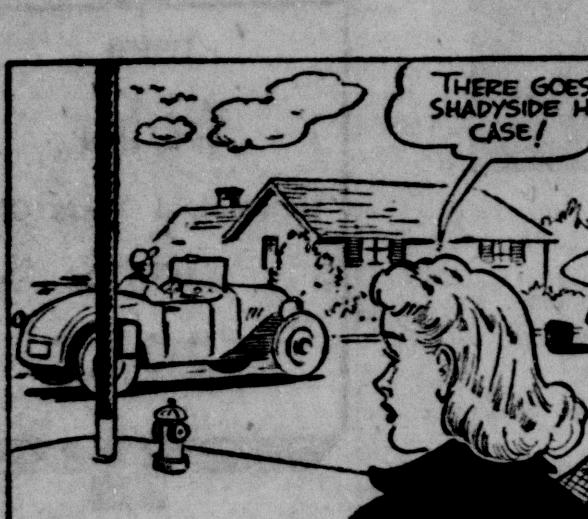

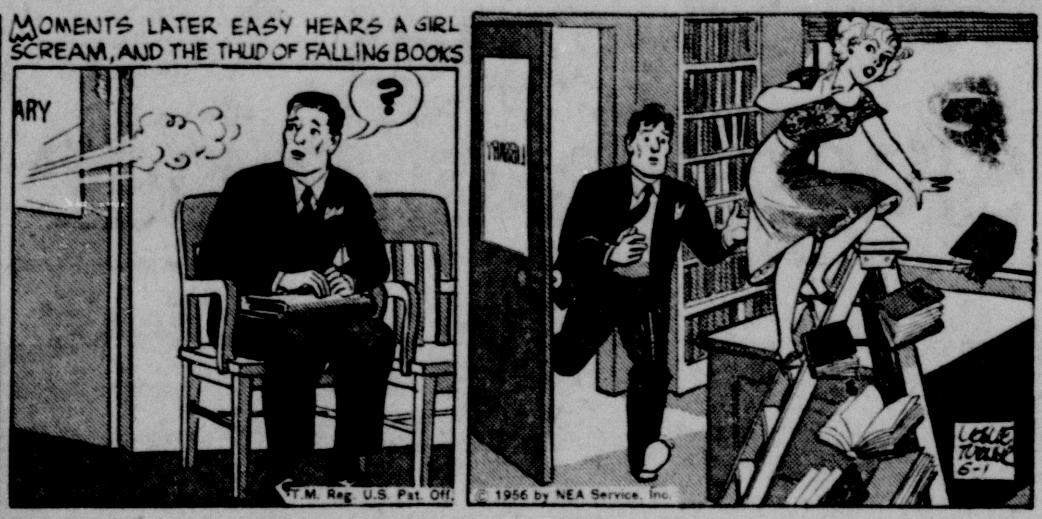

Administration  
Power Policies

WASHINGTON (UPI) — House Democrats today accused the Eisenhower administration of aiding private utilities in a fight to destroy public power and remove all opposition to "a complete private power monopoly in the United States."

"textbook for socialism." The Republicans' 50-page dissent said the Democrats had displayed a "shocking misuse of congressional prerogatives and functions for partisan purposes."

The reports are based on 18 days of stormy hearings held in Springfield, Mo., Atlanta, Ga., Denver, Colo., Idaho Falls, Idaho, San Francisco, Calif., and Washington, D.C. last year by a subcommittee headed by Rep. Earl Chudoff (D-Pa.).

General George Washington created the Order of the Purple Heart on August 7, 1782, and it was revived by the war department on February 22, 1932, 200th birthday of the first president.

## (1) Notices

U. S. DEPARTMENT OF THE INTERIOR, Bureau of Land Management, Washington 25, D. C. Notice is hereby given that lands known to contain coal in commercial quantities, comprising 30 acres are offered for coal lease by sealed bids at a minimum bid of \$5 an acre to the qualified bidder of the highest cash amount as a bonus for the privilege of leasing under section 2 of the Act of February 25, 1920 (41 Stat. 438), as amended, and the Act of August 7, 1947 (61 Stat. 913). All bids must be submitted to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Washington 25, D. C. on or before 1:00 p. m. E. S. T., June 28, 1956. Each bidder must submit with his bid one-fifth of the amount bid by him in cash or by certified check, cashier's check, or money order made payable to the Bureau of Land Management and file evidence of his qualifications to receive a lease as prescribed in 43 CFR 193.11(a) (2) and (3). If a current showing in that regard has not been filed, the envelopes must be plainly marked that they are not to be opened before the hour and date set out herein and must show that the bid is for coal lease. No bid received after the time specified herein for receiving bids will be considered. Bidders are warned against committing any act of intimidation, combination or unfair management to hinder or prevent bidding at the sale in violation of section 1860, Title 18, United States Code. The right is reserved to reject any and all bids. Lands to be leased are located approximately 10 miles southeast of Harrisburg, in Saline County, Illinois and described as N 1/4 SE 1/4 SE 1/4 sec. 22, T. 10 S., R. 7 E., 3rd P.M. Terms: a royalty of 15 cents a ton of 2000 lbs., mine run; a minimum annual production to a royalty value of \$1 an acre, beginning with the fourth year of the lease; a bond in the sum of \$1000; a minimum expenditure of \$1000 on or for the benefit of the land listed of which sum not less than one-third shall be expended during each of the first three years of the lease unless sooner expended. There will be made a part of the lease if and when issued, the provisions set out in Form 4-216 and other special terms and conditions, copies of which may be obtained from Acting Manager, Eastern States Land Office, Bureau of Land Management, Washington 25, D. C. Prior to the issuance of a lease on standard coal lease Form 4-206, the successful bidder must pay the remainder of his bonus bid, rental of 25 cents an acre for the first lease year and the cost of publication of this notice of lease offer. He must execute and file lease forms and stipulations (5 copies each) and a satisfactory bond in the amount specified above. Deposits of other bidders will be returned upon completion of the sale. Charles P. Mead, Acting Manager. 276

Notice of Sale of Real Estate for Taxes or Special Assessments; and Notice of Filing Petition for Order to Issue Tax Deed TO: OTTO W. TATE, and all parties interested in the real estate hereinabove described.

You and each of you are hereby notified that on the 19th day of October, 1953, the County Court of Saline County, Illinois entered a judgment and order of sale (in Case No. 497-A) upon delinquent lands and lots, and fixed the correct amount of tax paid under protest in the County of Saline and State of Illinois for the year 1952; that the undersigned, as purchaser or assignee of the purchaser, on the 19th day of October, 1953, at the sale ordered in said proceeding, in which sale was held by the County Collector of said County on the date aforesaid at the Court House in the City of Harrisburg, in the County of Saline, and State of Illinois, purchased said delinquent land and lots for the taxes, interest, penalties and costs due and unpaid for the year 1952; And that such delinquent lands and lots so purchased are more particularly described as follows:

The east half (E 1/2) of the northwest quarter (NW 1/4) of the southeast quarter (SE 1/4) of Section Twenty-four (24), Township Seven (7), South, Range Five (5), east of the Third Principal Meridian, situated in the County of Saline and State of Illinois.

Such real estate so purchased was last taxed in the name of Otto W. Tate. The time for redemption of said real estate will expire on the 19th day of October, 1956.

On the 6th day of June, 1956, the undersigned filed a petition in the County Court of Saline County, Illinois in the same proceeding in which the aforesaid judgment and order of sale was entered. Said petition prays that the court enter an order directing the County Clerk to issue a tax deed to the undersigned if the real estate shall not be redeemed from the sale; And the undersigned intends to make an application to the court on the 19th day of October, 1956, at the hour of 10:00 A. M. for an order on said petition that a deed issue to the undersigned if the real estate shall not be redeemed from the sale.

## Report Fewer Cases of Polio

WASHINGTON (AP) — The Public Health Service reported today that polio cases so far this year are running considerably behind 1955.

Although it is too early to make any solid predictions, authorities admit they are now hopeful that this will be a relatively light polio year.

The health service said 120 cases were reported in the nation last week, less than half the number reported in the same week last year.

So far this year, there have been 1,864 polio cases compared with 2,534 during the same period of 1955. There also have been 49 fewer paralytic cases than last year.

## New Western Union Contract

WASHINGTON (AP) — The Western Union Telegraph Co. and two unions have reached agreement on a new contract providing more than 18 cents an hour in wage increases and fringe benefits.

Western Union reached the agreement Wednesday in negotiations with the AFL-CIO Commercial Telegraphers Union, representing 30,000 Western Union workers throughout the country, and the independent American Communications Assn., representing 4,000 workers in New York City.

R. A. Morgan, assistant vice president of the firm, said the agreement provides for a 13-cent hourly across-the-board wage increase. It also provides for 5-cent hourly pay raises in the form of job reclassifications, effective next Jan. 1.

The pay of Western Union workers heretofore has averaged \$1.88 an hour.

The agreement, which ended any danger of a tie-up of telegraph facilities, also calls for an increase in minimum pensions from \$60 to \$100 a month, including social security payments.

### Actor Robert Dix Weds Starlet

HOLLYWOOD (AP) — Actor Robert Dix, son of the late western film star Richard Dix, and actress Janet Lake today admitted they were married secretly in Las Vegas, Nev., last Thursday.

The MGM starlet previously had announced she would marry Dix June 28 in religious rites of the Bahai's faith, a Persian cult to which both belong.

"We didn't want to say anything about the Las Vegas ceremony," Dix said, "because we wanted to break the news to Janet's parents when they come here."

## Airliner Catches Attire; Six Hurt

PITTSBURGH (AP) — A Trans World Airline passenger plane with 31 persons aboard caught fire today when its landing gear collapsed on landing at Greater Pittsburgh Airport.

At least six persons were injured, none seriously, a TWA spokesman said.

The plane's undercarriage failed to lock properly and collapsed as the two-engined Martin Skyliner, bound from New York City to Houston, Tex., touched down on the runway.

A TWA spokesman said the fire was extinguished quickly.

The plane carried 28 passengers and a crew of 3. It was making a scheduled stop here.

## Balky Witness Suspended From His Job

ST. LOUIS (AP) — A balky witness at a hearing of subcommittee of the House Un-American Activities Committee here was suspended from his job today after other workers at the General Motors Fisher body plant refused to work with him.

About 50 men on the assembly line at the plant stopped work Wednesday night to protest the presence of William H. Holland who refused to tell the subcommittee if he had been a Communist. Holland invoked the Fifth Amendment.

Frank E. Simpson, director of industrial relations at the plant, said the protestors stayed off the job about 14 minutes. Holland was suspended on the grounds he had falsified his application at the plant.

Holland refused to tell the subcommittee Wednesday whether he had mentioned in his application at the plant the fact he had graduated from Washington University in 1950 with a degree in physics.

Subcommittee Counsel Fran S. Tavener Jr. said it was part of Communist strategy for college-trained party members to get industrial jobs without disclosing their educational background.

The hearings on alleged Communist infiltration into defense plants in the St. Louis area was in recess today.

### Issue Two Oil Drilling Permits

Two Saline county oil well drilling permits were issued at Springfield between May 29 and June 24.

Theodore R. Lindsay of Mt. Vernon was granted a permit to drill the Ola Moore et al No. 1, SW SE SE, 2-9-56 (Brushy);

Phillips Petroleum Co. of Bartlesville, Okla., was given a permit for the Ryan Community unit No. 1, NWc NE SW, 10-8-56 (Galatia).

### Boy Hurt When Struck by Police Car

EAST ST. LOUIS, Ill. (AP) — A 5-year-old East St. Louis boy was seriously hurt when struck by a police car Wednesday night.

The policeman was pursuing two teen-age motorcycle riders when his vehicle struck Charles Burns, son of Mr. and Mrs. William Burns. The boy suffered serious head injuries.

Mr. Eisenhower gave the green light to such exchanges when he told his news conference Wednesday that he would extend invitations to Soviet officials "on a completely reciprocal basis."

### Hershey Gets Promotion

WASHINGTON (AP) — President Eisenhower Wednesday nominated Maj. Gen. Lewis B. Hershey, director of selective service, for the permanent rank of lieutenant general.

Indications are the Soviet bosses would like nothing better. The result could be eventual visits to the United States by Marshal George K. Zhukov, Premier Nikolai Bulganin and Communist Party boss Nikita Khrushchev.

Mr. Eisenhower gave the green light to such exchanges when he told his news conference Wednesday that he would extend invitations to Soviet officials "on a completely reciprocal basis."

**Dag Says Road to Arab-Israel Peace May Be a Long One**

UNITED NATIONS, N. Y. (UPI) — Secretary-General Dag Hammarskjold, unanimously authorized by the United Nations Security Council to continue his "good offices" in Palestine, said today the road toward acceptance of a peace settlement by Israel and the Arabs "may be and probably is a long one."

He told a news conference that the machinery was ready for a follow-up of his recent Middle East mission in which he achieved cease-fire agreements between Israel and the Arabs. But, he said, the time was not appropriate for outlining how he would seek firm agreements in Palestine.

### Armed Bandits Rob Messengers of \$211,000

NEW YORK (AP) — Three armed bandits, disguised in striped blue denim workclothes and "aviator's" goggles, Wednesday robbed two messengers of \$211,000 in rough and polished diamonds in Greenwich Village.

### Stamp and Coin Club To Meet at Eldorado

The Little Egypt Stamp and Coin club will hold its regular meeting at the Lion's Den in Eldorado June 10 at 2 p. m.

Coins and stamps will be displayed and auctioned. Everyone is welcome to attend.

## Report Turncoat Wants to Return

LONDON (AP) — A British newspaperman reported from Peiping today that one of the turncoat American soldiers wants to leave Communist China but is "a bit scared" to go home and face his punishment.

The ex-soldier, Samuel David Hawkins, 23, spoke to Rene MacColl of the London Daily Express who is in Red China on assignment.

MacColl said Hawkins, one of the 23 former GI's who stayed with the Communists after the "big switch" of prisoners of war in Korea, is starting to regret his decision.

"I miss my friends back in America, I miss not having a car of my own (he rides a bike) and I miss the movies," Hawkins said.

Six of the original 23 have returned. One died in Red China. One of Hawkins' fellow turncoats, Richard Tenneson, who came out last year, indicated then that Hawkins was unhappy.

Hawkins, captured in November, 1950, is the son of Mrs. Corley Jones, of Oklahoma City. His father is dead.

MacColl said Hawkins is working as a truck serviceman for about \$112 a month, "and on that you can live quite comfortably here."

He also is engaged to a "charming" White Russian typist.

### 2 Workers Plunge To Death from Mackinac Bridge

ST. IGNACE, Mich. (AP) — Two men plunged screaming to their deaths Wednesday while working near the top of a 552-foot tower of the Straits of Mackinac bridge.

The men were part of a five-man crew stringing a wire mesh catwalk floor on the main bridge cable which ran from the high north tower to the north anchorage in the straits. They fell to their deaths in the rough water far below when the catwalk they were laying broke behind them.

The other crew members managed to save their own lives by clinging to the broken catwalk.

The dead workers were identified by the American Bridge Co. as Jack C. Baker, 28, Pagosa Springs, Colo., and Robert Kippen, 28, Plymouth, Mich. Baker's body was recovered. The Coast Guard was dragging for Kippen's body.

The new deaths bring to four the number of construction workers who have died in the past two years of work on the giant bridge which will link Upper and Lower Michigan when it is finished at an estimated cost of 100 million dollars.

During the past week, 21-year-old Patterson of St. Albans, N. Y., had been favored at odds ranging as high as 3-1 because of his youth, speed, skill and punch. But increased support for the 24-year-old Hurricane from Far Rockaway, N. Y., indicates betting may be close at ring time 10 p. m. EDT Friday.

The wagering apparently reflects greater appreciation of Jackson's unorthodox style, his ruggedness and his remarkable stamina.

Bookies are offering 7-5 that Patterson does not knock out Tommy, and 11-5 that Jackson doesn't stop Floyd.

Meanwhile, Chairman Julius Hefland of the N. Y. Boxing Commission said he would welcome a September fight between Friday night's winner and Archie Moore, who is the number one heavyweight contender as well as the world light heavyweight champion.

**U. S. Grants Concessions to Lower Tariffs**

WASHINGTON (UPI) — The United States has granted new tariff concessions on imports worth nearly one billion dollars a year, the State Department announced today.

In return foreign nations gave concessions on American exports running into hundreds of millions of dollars yearly.

The concessions granted by the United States covered a host of items including Scotch whisky, vermouth, automobiles, airplanes, synthetic rubber, special cigarette leaf tobacco and piano accordions.

Among the American exports

items on which foreign nations granted concessions were beer, machine tools, tobacco or tobacco products, heavy machinery, motor vehicles, airplanes and petroleum products.

The U. S. tariff reductions will begin to take effect June 30. They will apply to all free world countries but not to the Soviet bloc.

Law requires that such concessions be withheld from the Soviet Union and her allies.

**Armed Bandits Rob Messengers of \$211,000**

NEW YORK (AP) — Three armed bandits, disguised in striped blue denim workclothes and "aviator's" goggles, Wednesday robbed two messengers of \$211,000 in rough and polished diamonds in Greenwich Village.

Stamp and Coin Club To Meet at Eldorado

The Little Egypt Stamp and Coin club will hold its regular meeting at the Lion's Den in Eldorado June 10 at 2 p. m.

Coins and stamps will be displayed and auctioned. Everyone is welcome to attend.

### Stamp and Coin Club To Meet at Eldorado

The Little Egypt Stamp and Coin club will hold its regular meeting at the Lion's Den in Eldorado June 10 at 2 p. m.

Coins and stamps will be displayed and auctioned. Everyone is welcome to attend.

### Chicago to Crack Down on Horn Tooters

CHICAGO (AP) — Chicago will crack down with a vengeance on motorists who can't resist tooting their horns.

The City Council Wednesday

passed an amendment to the traffic code imposing fines up to \$200 on any driver who sounds off without a good reason.

The amendment now awaits the mayor's signature.

### Child Drowns

CERRO GORDO, Ill. (AP) — Cynthia Gilman, the year-old daughter of Mr. and Mrs. H. R. Gilman, drowned Wednesday when she apparently fell into a water tank.

The child was playing in the yard of the Gilman farm home north of here when the accident occurred.

The tank contained about 15 inches of water.

The Dow-Jones averages at noon

showed industrials at 485.52, up 2.9; rails at 163.26, up 0.58; utilities at 63.45, up 0.17, and 65 stocks 173.05, up 0.02.

## Local Coal Belt Team Loses to Carbondale, 10-7

The Harrisburg Coal Belt team lost to the strong Carbondale nine here last night, 10 to 7.

The visitors' attack was led by shortstop Bryan, who had two home runs. Most of the Carbondale players were SIU boys.

Lefty Drake, Carbondale pitcher, turned in a fine performance with 13 strikeouts. He allowed six hits.

Jimmy Cummins, Don Price and Ken Spurlock led Harrisburg's attack. Cummins had a single and triple in four times at bat, Price a double and single and Spurlock a double.

Conger and Hatcher pitched for Harrisburg with Ronnie Vick catching.

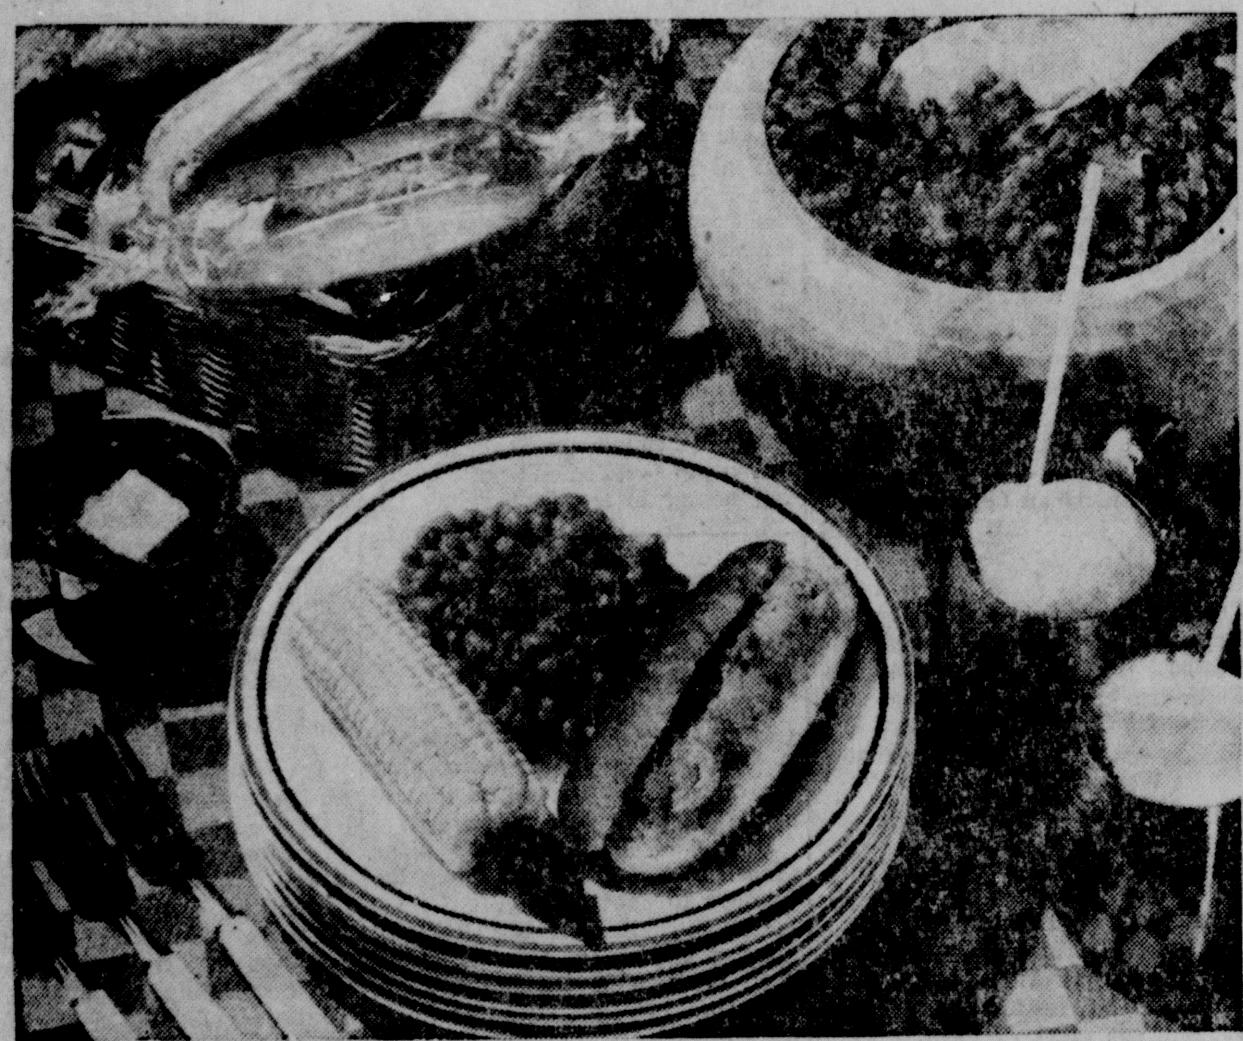

Harrisburg will play Du Quoin at 2 p. m. Sunday. Du Quoin played in the state baseball tournament, finishing third.

## See Close Odds For Patterson-Jackson Bout

NEW YORK (AP) — Young Floyd Patterson, a declining favorite at 2-1, broke camp today and came to New York for his 12-round heavyweight elimination fight with freakish Tommy (Hurricane) Jackson Friday night at Madison Square Garden.

With \$22,000 already in the till, box office men at the Garden predicted a crowd

# "For Those Backyard Picnics"

## NYC Runs Into Opposition on Plea

(Continued from Page One)  
would attempt to improve the service.

### Hearing Continued

The ICC stipulated the service must be provided for at least nine months under improved conditions. The railroad, however, operated the trains since 1954, and now has resumed its case for discontinuance.

The communities which filed the intervening petition were Christman, Paris, Marshall, West Union, Robinson, Flat Rock, Lawrenceville, St. Francisville, Alendale, Grayville, Keensburg, Carmi, Crossville, Norris City, Carrier Mills, Harrisburg and Eldorado.

The cities asked that the ICC hold a hearing at a point more centrally located to better permit opponents to present witnesses.

State Reps. Herschel S. Green (West York) and Garrell Burgoon (R-Lawrenceville), and Sen. Glen O. Jones (R-Raleigh), and a number of city and civic officials from the communities involved attended the hearing.

The hearing was continued until July 17 at Springfield.

## Former Crawford County Judge Dies at Robinson

ROBINSON, Ill. (UPI)—William A. McCarty, 63, a former Crawford county judge died here today after suffering two heart attacks.

McCarty, who was a brother of George H. McCarty, city editor of the Robinson Daily News, suffered the first attack at his home Wednesday night. He was taken to a hospital where he had the second attack this morning and died.

McCarty was a Democrat and served as county judge from 1922 to 1938. He was a law partner of another brother, P. G. McCarty, in Robinson.

McCarty was a past president of the Crawford County Bar Assn. and a graduate of Illinois Wesleyan university.

Funeral services probably will be held for McCarty Sunday in Robinson. He is survived by two daughters, his two brothers and a sister.

The National League, in American baseball, was founded in 1876; the American League in 1900.

## IN MEMORIAM

In loving memory of a dear father, Joe McDole, Sr., who passed away 20 years ago, June 7, 1936.

Nothing but memories as we journey on,  
Longing for smiles from a face that is gone,  
But we keep in our memory the love of the past,  
For deep in our hearts it was planted to last.

Sadly missed by James and Elizabeth McDole.

## PICNICS CAN BE FUN FOR MAMA

Whether you hold them in your own backyard or in front of the fireplace in the living or recreation room, picnics can be year 'round fun. Yes, for Mama too!

Choose a menu for which you can make up most dishes in the morning or even the day before. Then just before picnic time pop food into the oven.

Here's an easy menu that will allow Mom to enjoy the picnic too—ham and cheese stuffed rolls, hot Boston baked or chili beans, buttered corn on the cob (fresh or frozen), relishes, "black cows" for dessert.

### CHEESE AND HAM STUFFED ROLLS

6 to 8 frankfurter rolls  
1 cup ground cooked ham or canned luncheon meat  
1/4 cup chopped sweet cucumber pickles or sliced stuffed green olives  
1 tablespoon grated onion  
1 teaspoon Worcestershire sauce  
6 tablespoons mayonnaise or cooked salad dressing  
2 cups shredded American Cheddar Cheese

Combine ham with all the other ingredients. Season to taste with salt and pepper. Cut slice off top of each roll, scoop out center (dry for crumbs). Spread with softened butter.

Fill hollow of each roll with mixture. Replace top. Wrap each in aluminum foil, parchment or heavy waxed paper. Refrigerate till needed.

To heat: If rolls are in foil and cooking is being done outside, place on rack over very low coals until roll is heated through. Or with any wrap, place in heated Dutch oven long enough to heat through. Keep over low coals or other heat. Of course, these wrapped rolls may be placed in a moderately slow oven (325 degrees) for heating. Serve in wrappers.

## Eisenhower Asks House to Restore Aid Cut

### Throws Prestige Into Fight with Letter to Martin

WASHINGTON (UPI)—President Eisenhower today made a dramatic last-minute plea to the House to restore most of a \$1,100,000,000 cut in his \$4,900,000,000 foreign aid program.

He made the appeal in a letter addressed to House Republican Leader Joseph W. Martin Jr. Martin read the letter to the House as members prepared to vote on the size of the foreign aid program.

"I am deeply concerned that our nation's security . . . will be seriously impaired by the proposed cuts," Mr. Eisenhower said. "I therefore hope most earnestly that the majority of these funds can be restored."

The House Foreign Affairs Committee recommended a slash of \$1,100,000,000 in the administration's military and economic aid request. House Republican and Democratic leaders, at the urging of Mr. Eisenhower, had promised earlier to fight to restore \$600,000,000 of the cut. But there was heavy rank-and-file opposition to restoring the funds.

Throwing the full weight of his own prestige into the battle just before the voting began, Mr. Eisenhower said in his letter that the \$1,100,000,000 cut would force the administration to eliminate "essential" overseas programs to bolster American Allies or to "cripple" the programs.

Martin urged approval of a bipartisan amendment to restore \$600,000,000 to the military funds requested by the President. He said this money formed a "crucial part of the administration's program."

The amendment to restore the \$600,000,000 was introduced earlier by Rep. Brooks Hays (D-Ark.) who pleaded with the House to "yield" to the President's judgment.

But Rep. Alvin M. Bentley (R-Mich.) denounced the President's whole aid request as "ridiculous." Instead of restoring the committee cut, he appealed to the House to increase it by another \$500,000.

### Bad Check Artist Claims He Knows Where Ransom Hidden

GREENSBORO, N. C. (UPI)—A balding bad check artist who was sentenced to 10 years in prison here Wednesday said he knows where the missing portion of the Bobby Greenlease kidnap ransom money is hidden.

Federal officials said they put little credence in his story.

Charles Eugene Morgan, 63, said on the stand Wednesday the missing \$300,000 of the \$600,000 ransom is hidden in the basement of a house in St. Louis. Morgan, wearing a borrowed hearing aid, said he knows the money is there because he bought some of the \$20 bills for \$10 each from a man he knows only as "Costello" in St. Louis.

## Poage Insists Soil Bank Covers Losses of Crops

### Challenges Tough Stand by Agriculture Department Officials

WASHINGTON (UPI)—Rep. W. R. Poage (D-Tex.) said today there is "no doubt at all" that the new farm law provides for soil bank payments to farmers who lost all or part of their 1956 crops to drought, floods or other disasters.

Poage thus sharply challenged Agriculture Department officials who said earlier that no soil bank payments would be made for crop reduction suffered from drought, flood or insects.

The acreage reserve section of the soil bank plan provides payments to farmers who reduce acreage of wheat, cotton, corn, peanuts, rice and tobacco below government acreage allotments.

Poage said it is "perfectly clear" in the act that any farmer who wants to put allotted acreage of these 1956 crops into the soil bank may do so "regardless of the condition or lack of condition of the crop."

Agriculture Department sources, meanwhile, indicated that top level officials were having second thought about their "tough" stand on soil bank payments for drought-damaged crops.

One official said he feels the department should pay only for crop reductions made as a result of soil bank contracts between farmers and the government, "but we will not subvert the law."

Department attorneys are studying the act. They are expected to give Agriculture Secretary Ezra T. Benson a formal opinion soon on the controversy over payments for crops damaged or destroyed before the new farm act took effect.

The controversy involves millions of acres of wheat in drought areas of the Southwest and Great Plains. It could also affect other sections where 1956 crops have been damaged by drought, flood, hail and other natural causes. There are no reliable estimates on the potential payments involved.

**Bachelor Kings**  
Only bachelor English kings were William II, called Rufus or the Red, who reigned from 1087 to 1100, and Edward VIII, the present Duke of Windsor, who was a bachelor while he was king in 1936.

The new letter was not disclosed immediately. But officials said it probably was a reply to Mr. Eisenhower's letter to Bulganin two months ago appealing for an eventual ban on the production of atomic weapons.

The dispatch of the new letter, the sixth in the exchange between the two world leaders, was disclosed by the Soviet embassy here.

A spokesman said the letter will be delivered through Secretary of State John Foster Dulles this afternoon.

## Bulganin Sends New Letter To Eisenhower

WASHINGTON (UPI)—Russian Premier Nikolai Bulganin today sent President Eisenhower a new letter in their running correspondence on major East-West problems.

The new letter was not disclosed immediately. But officials said it probably was a reply to Mr. Eisenhower's letter to Bulganin two months ago appealing for an eventual ban on the production of atomic weapons.

The dispatch of the new letter, the sixth in the exchange between the two world leaders, was disclosed by the Soviet embassy here.

A spokesman said the letter will be delivered through Secretary of State John Foster Dulles this afternoon.

## Caudle Testifies In Own Defense

ST. LOUIS (UPI)—T. Lamar Caudle denied today he was motivated by any hope of reward in making his decision not to bring to trial the tax evader whose case he and Matthew J. Connelly are accused of conspiring to fix.

Caudle, former assistant attorney general in charge of the tax division, forcefully declared he was concerned only with "my duty and the humaneness which I thought justified."

"I would do it again today," he told a jury in Federal Court here.

Caudle and Connelly, White House aide to former President Truman, are on trial on charges of conspiring with Harry I. Schwimmer, an attorney, to allow Irving Sachs, Schwimmer's client, to escape criminal prosecution.

Caudle began testifying in his own defense after Connelly again denied he ever accepted bribes for official favors while he headed Mr. Truman's personal staff. Connelly said such gifts as he received came at Christmas time from persons of "good reputation."

Caudle directed that the criminal case against Sachs be dropped in 1949 and sent it back to the Internal Revenue Bureau for civil settlement after a board of psychiatrists at St. Elizabeth's hospital in Washington reported a trial would endanger the life of Sachs, an epileptic.

The government charges Caudle received a \$3,300 oil royalty and Connelly a \$3,600 royalty as bribes for their efforts on behalf of Sachs who later was indicted, pleaded guilty and was fined \$40,000 but was not sent to prison because of his epileptic condition.

### Rites for Infant

JOHNSON, N. C. (UPI)—A balding bad check artist who was sentenced to 10 years in prison here Wednesday said he knows where the missing portion of the Bobby Greenlease kidnap ransom money is hidden.

Federal officials said they put little credence in his story.

Charles Eugene Morgan, 63, said on the stand Wednesday the missing \$300,000 of the \$600,000 ransom is hidden in the basement of a house in St. Louis. Morgan, wearing a borrowed hearing aid, said he knows the money is there because he bought some of the \$20 bills for \$10 each from a man he knows only as "Costello" in St. Louis.

## John Woods Rites At Junction Friday

Funeral services for John Woods, former deputy sheriff in Gallatin county who died Wednesday at 1:45 a. m. in the Pearce hospital in Eldorado, will be Friday at 2 p. m. at the General Baptist church in Junction. Rev. Don Rister will conduct the service and burial will be in the Kennedy cemetery south of Junction.

The body lies in state at the Cox funeral home in Ridgway.

# HARRISBURG SALUTES JUNE DAIRY MONTH

**FIRST COMES THE RAW MATERIAL.** Huge tank trucks emblazoned with the Dairy Brand insignia deliver raw milk to the dairy daily . . . 70,000 pounds a day . . . and it is pumped from the trucks directly to the receiving room.

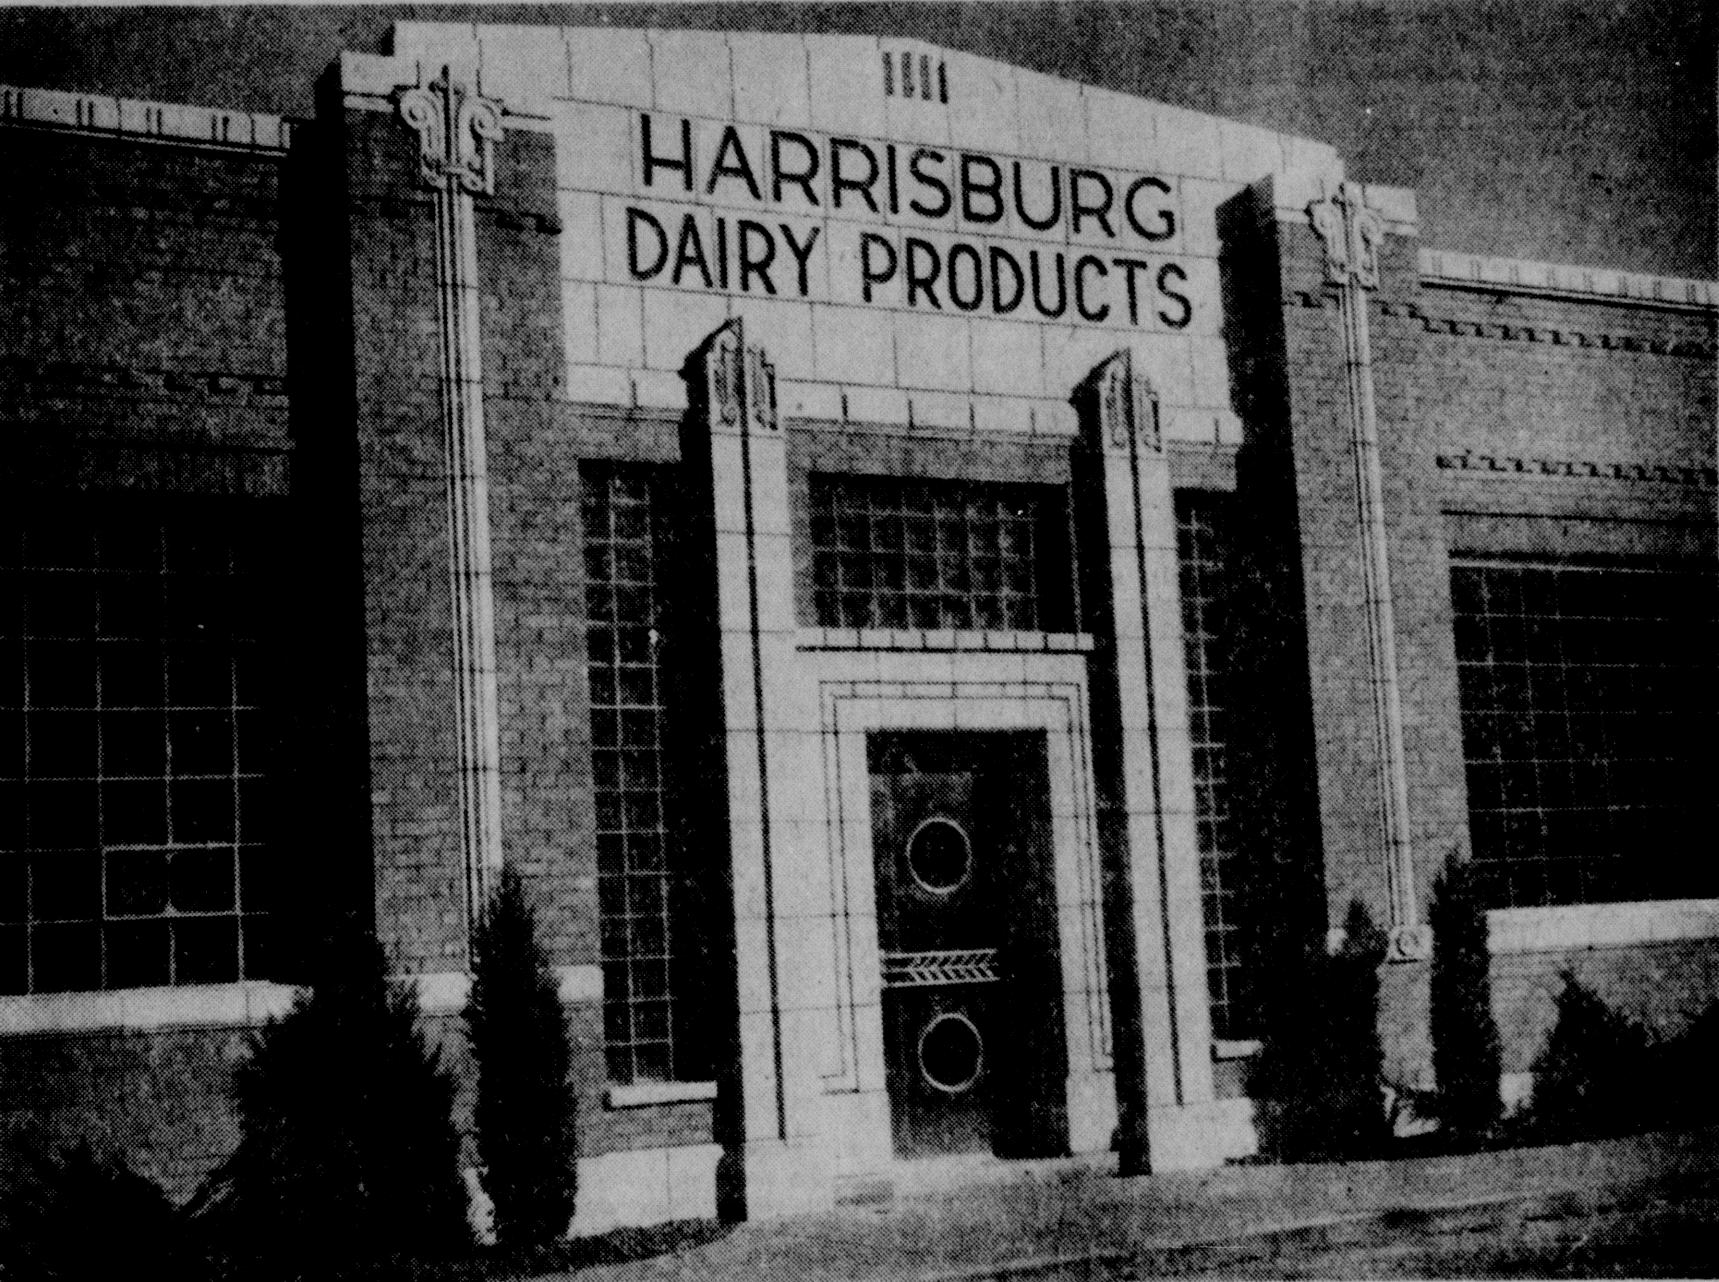

**IT COMES IN HERE.** In the receiving room pictured above the raw milk is weighed and clarified, ready for vacration and the bottling machine. This room and equipment, like all others at Harrisburg Dairy, are as hygienically clean as any hospital operating room.

**INTO THE CARTONS, UNTOUCHED BY HUMAN HANDS.** The milk, after clarification and pasteurization, is bottled in the familiar Dairy Brand cartons by this Pure-Pak bottling machine. The machine shown is bottling half-gallon cartons of Dairy Brand.

**AND IT COMES OUT HERE.** Part of the fleet of 64 Dairy Brand trucks is shown at the loading docks, waiting to transport Dairy Brand milk to consumers over a territory covering 13,000 square miles. Thus the milk you drink goes through the entire dairy process of transport, purification, pasteurization, bottling, and delivery completely automatically, scientifically, and under "hospital-clean" conditions.

**HARRISBURG DAIRY PRODUCTS** undoubtedly can claim a position as one of our leading industries in the community and the area. Established in 1922, the dairy now processes 70,000 pounds of milk a day, with over 100 employees and a yearly payroll of over \$340,000. The payroll total, however, is but a small portion

of the dairy's contribution to the local economy when considered in comparison with the amount spent in this area for raw milk alone. Their all-modern building, pictured above, is a result of a remodeling program started in 1946, and their plant and equipment today are as modern and complete as any dairy in the United States.

## Nursing Mothers Need Most Milk

A nursing mother needs more milk than anyone else.

Harriet Barto, University of Illinois dietetics instructor, says that nursing mothers should have six cups of milk daily, and pregnant women need four cups daily.

Research studies show that calcium needs increase during pregnancy and are highest during the nursing period. Six cups of milk will supply all of the calcium a nursing mother needs. No other practical combination of foods can supply this amount of calcium, says Miss Barto.

Most women get only a little more than half of the calcium they need. As a result, their bodies are deficient in this mineral before they become pregnant. Their own calcium needs do not decrease during pregnancy, and they need additional calcium for the baby.

So they must include more calcium-rich foods in their diets—namely, milk and milk products.

Miss Barto says that calcium tablets are not a substitute for the calcium in milk. Some physicians prescribe medicinal calcium as a supplement to dietary calcium to

be sure the calcium need is met.

Milk supplies more calcium than any other food and at the same time supplies other important nutrients, especially phosphorus, protein, riboflavin, thiamine, and vitamin A. A pregnant woman who uses a quart of milk daily receives about a third of the protein she needs from it.

### STORING MILK

Store fluid milk near the freezing unit in the refrigerator for three or four days. Homogenized milk may be frozen.

### For the Bird

BROCKTON, Mass. — A letter carrier knocked on a door to make a delivery, but the woman inside wouldn't open the door.

"Got a letter with three cents postage due," he explained.

Came the muffled reply: "Bring it back tomorrow. I can't come to the door today—it's the canary's day out of the cage."

## Harrisburg Dairy Important To Entire Area

### Plant Processes

70,000 Pounds

Of Milk Daily

The month of June—the month of vacation and the month of weddings—also is National Dairy Month, and a look at the Harrisburg Dairy shows the importance of this local business institution both to this community and all of the surrounding area.

The Harrisburg Dairy was organized back in 1922 by Stanley Wilson Sr., and since that time the operation has doubled and redoubled until today the plant processes 70,000 pounds of milk a day—a gigantic figure.

One thing that few persons realize is that the amount of money that farmers receive for milk in Saline and surrounding area falls only behind their income from wheat and corn.

### Supply Is Inadequate

In fact, the Harrisburg Dairy could use a lot more of this near-by milk.

"Every month of the year our own supply of milk is inadequate and we have to secure milk from other channels," one Dairy Brand official remarked. "Right now farmers in Saline and surrounding counties could make from \$60,000 to \$75,000 more each month from milk we would buy, if they would build up their herds."

Harrisburg Dairy is the only dairy in southern Illinois that buys a majority of its milk from the farmers of southern Illinois, and Dairy Brand covers a larger portion of southern Illinois with its milk and ice cream sales than any other dairy.

To do so takes organization and lots of employes and vehicles. Right now the total number employed is right around 100 and 64 motor vehicles are kept in operation.

### Buy, Sell in Wide Area

There are three parts to the operation of a dairy: (1) procurement; (2) processing and (3) selling.

The Harrisburg Dairy goes as far north as Olney in buying milk which is brought here for processing. The area goes as far south as Eddyville, as far west as Route 37 that runs through Marion, Johnston City, West Frankfort and Benton; and to the Ohio river on the east.

The selling area is even larger. Dairy Brand products are sold in an area bounded by Flora and Olney to the north, south to Fairfield, and to McLeansboro, then west to Benton, Zeigler, Christopher, Carbondale and Murphysboro, and everything south of this line all the way to Cairo, except for Massac county.

### Industry Uses Most Trucks

Processed and sold by Harrisburg Dairy are milk, ice cream, cottage cheese, buttermilk, chocolate milk drink, half-and-half cream, and whipping cream. Distributed are butter, cheddar and American cheese, frozen foods, and sundry items like cones and straws.

With attention focused on National Dairy Month, a dairy spokesman here pointed out that the American dairy industry has more trucks in use collecting and distributing its products than any other industry in the world.

That leaves but one function of the dairy left—the work at the plant in processing the raw milk for pasteurized products and ice cream.

The local plant, a building the community should be proud of, was completed in 1947. The dairy needed more room for its rapid expansion and as modern a dairy as can be found in the country was installed.

### Purest of Milk Assured

Inside the fine structure was put the most modern stainless steel equipment in rooms where walls and flooring were of tile—all conducive to cleanliness and purity.

For example, in the milk processing room, engineers have worked out the most efficient operation for the raw milk storage, pasteurizer, homogenizer, conveyor line and the Pure-Pak machines.

The Pure-Pak operation assures the purest of milk, because of the type of carton now used, which is thrown away after use.

It is interesting to note that liquid wax is brought here by tank truck delivery and the wax is transferred to 8,000-gallon heated storage tanks. From there it goes to the wax chamber of the Pure-Pak machine, coating the cartons with pure wax, as required.

**June is Dairy Month**  
Festival of better living

ILLINOIS DAIRY FARMERS SUGGEST:

# refresh with milk!

### ISN'T NATURE WONDERFUL?

The "lift" you get from man-made beverages is quickly lost. But milk is different. For milk is *naturally* refreshing. Its natural sugars and proteins release their energy more slowly—so milk gives you a cool refreshing *lift without a letdown*. Next time you "take a break," make ice cold milk your drink. Enjoy the *lasting lift* of nature's best refresher! Each sip says: "Nature sure is wonderful."

**ICE COLD MILK..HIGH IN PROTEIN, HIGH IN CALCIUM..NATURALLY REFRESHING!**

You never outgrow your need for Milk!

Drink 3 glasses of Milk every day

Focus Attention  
On Milk in Diet

A glass of milk or a dish of ice cream may not look too impressive at first glance, but it is an important item in your daily diet.

Harriet Barto, University of Illinois dietetics instructor, says that three cups of milk supply three-fourths of the calcium, four-fifths of the riboflavin and nearly one-half the protein your body requires daily to function properly.

And you can get milk and milk products at a comparatively low cost when you consider their nutritional value.

The amount of milk you need daily depends on your age and sex. It's generally recommended, however,

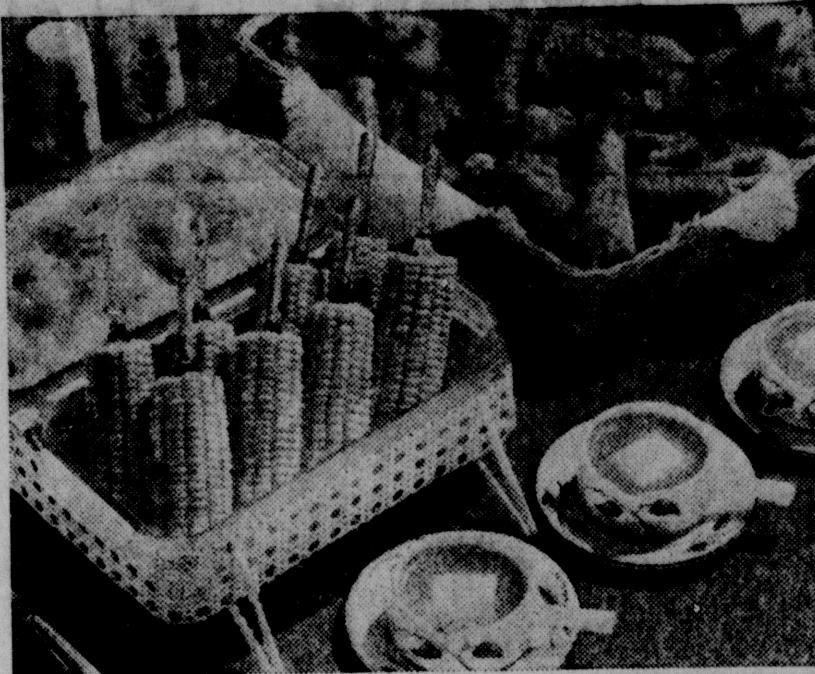

ever, that children have three to four cups of milk daily and that adults have at least two cups.

Teenagers need more milk than younger children because their bodies are larger and still growing and developing rapidly. Nursing mothers require the most milk of any group. They need six cups daily, and pregnant women need at least four cups.

## CHEESE TOPPING

To prevent a grated cheese topping on a baked dish from drying out, cover the cheese with bread crumbs. Or add the cheese shortly before removing the dish from the oven.

More than half of the lamb and mutton produced in 1954 went to New York, California and Massachusetts.

FAVORITE SUMMER DINNER  
FEATURES FRIED CHICKEN

If you took a vote on America's favorite summer dinner menu, there's no doubt you'd find it built around crunchy fried chicken.

With it, go corn on the cob and plenty of melted butter, tomatoes in some form, topped off with a dessert of old-fashioned strawberry shortcake and cream.

To make a carefree meal of this menu, serve butter-crisp oven-fried chicken along with a tasty tomato dish that can be made early in the day.

You'll find this fried chicken so easy because, except for browning, you cook it in the oven. It has a mouth-watering flavor that comes from the butter dotted generously over it.

## BUTTER-CRISP OVEN-FRIED CHICKEN

Dip pieces of frying chicken in milk. Roll in flour seasoned with salt and pepper (1½ teaspoons salt and a dash of pepper to a cup of flour). Left-over flour may be used in making the gravy. Using equal parts of butter and lard so that, when heated, it will be a half inch deep in the frying pan, cook floured chicken over

moderate heat until golden brown on one side. Turn, using tongs. When browned on all sides, place chicken in casserole. Dot liberally with butter. Cover and place in a moderate oven (350°) to finish cooking, allowing about 35 minutes. The heat then may be reduced to a very slow oven, to keep the chicken warm.

## CHEESE AND RICE TOMATO SCALLOP

4-6 servings  
350° preheated oven  
30-40 minutes

2 cups or more of cooked rice  
1 tablespoon minced onion or  
chopped chives

Fresh tomato slices, ½ inch  
thick or drained whole canned  
tomatoes

1 cup to 1½ cups (1 tall can)  
evaporated milk, undiluted  
shredded or thinly sliced sharp  
Cheddar cheese.

Place cooked rice mixed with  
onion and chives in shallow baking  
dish. Top with tomatoes.

Sprinkle with salt and pepper.  
Pour on milk to cover rice. Top  
with plenty of cheese. Bake in a

350° preheated oven 30 to 40 minutes.

Cheese is  
Powerhouse  
Of Nutrition

One ounce of Cheddar-type cheese is more of a powerhouse of nutrition than you may think.

An ounce of this type of cheese contains at least as much high-quality protein as an ounce of steak or roast, says Harriet Barto, University of Illinois dietetics instructor.

Cheese and milk contain the same nutrients, so you can help to meet the daily milk requirement by including cheese in your menus.

If you want to substitute cheese for milk, you must eat one ounce to take the place of the calcium in one cup of milk and four ounces to substitute for the riboflavin in one cup of milk. One ounce of cheese and one cup of milk contain about the same amount of protein.

If made from whole milk, cheese contains some fat. One ounce of whole milk cheese also has about

the same amount of vitamin A as one cup of whole milk.

Cheese costs relatively little when you consider its food value. And, like milk, you can use all of it and so eliminate any waste.

Whether you like to eat cheese separately or add it to other foods, it will supply you with nutrients your body needs.

June Is Dairy Month and Pankey's of Harrisburg Introduce Their New

is less and less able to focus. Eventually, the lens of the eye can no longer change and old sight has reached its maximum.

The three making the study on 106 men and women were Dr. Elwin Marg, assistant professor of physiological optics and optometry; Dr. Duco Hamaski, a teaching assistant, and Dr. Jim Ong, former graduate student. Their findings were published in the American Journal of Optometry.

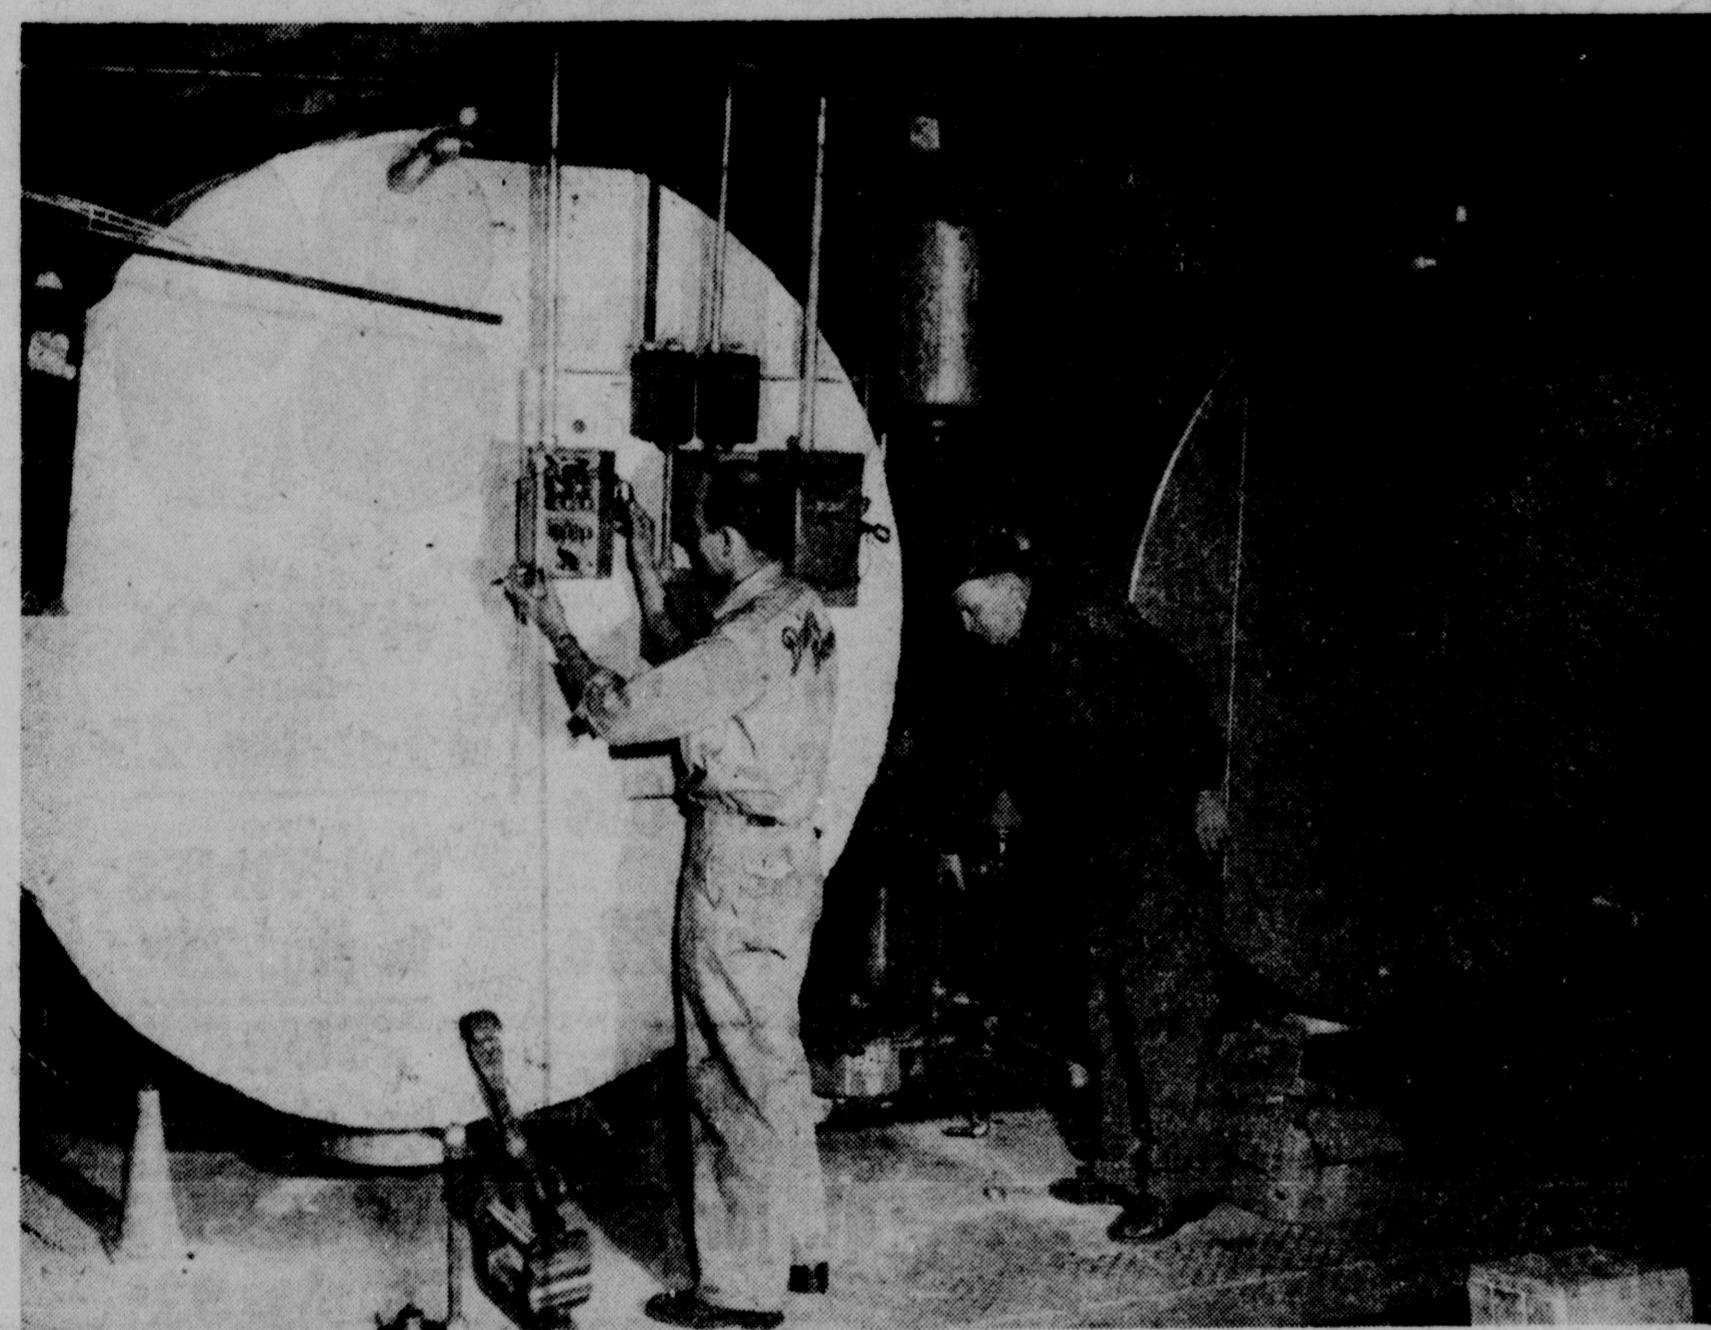

The Daily Register 25¢ a week

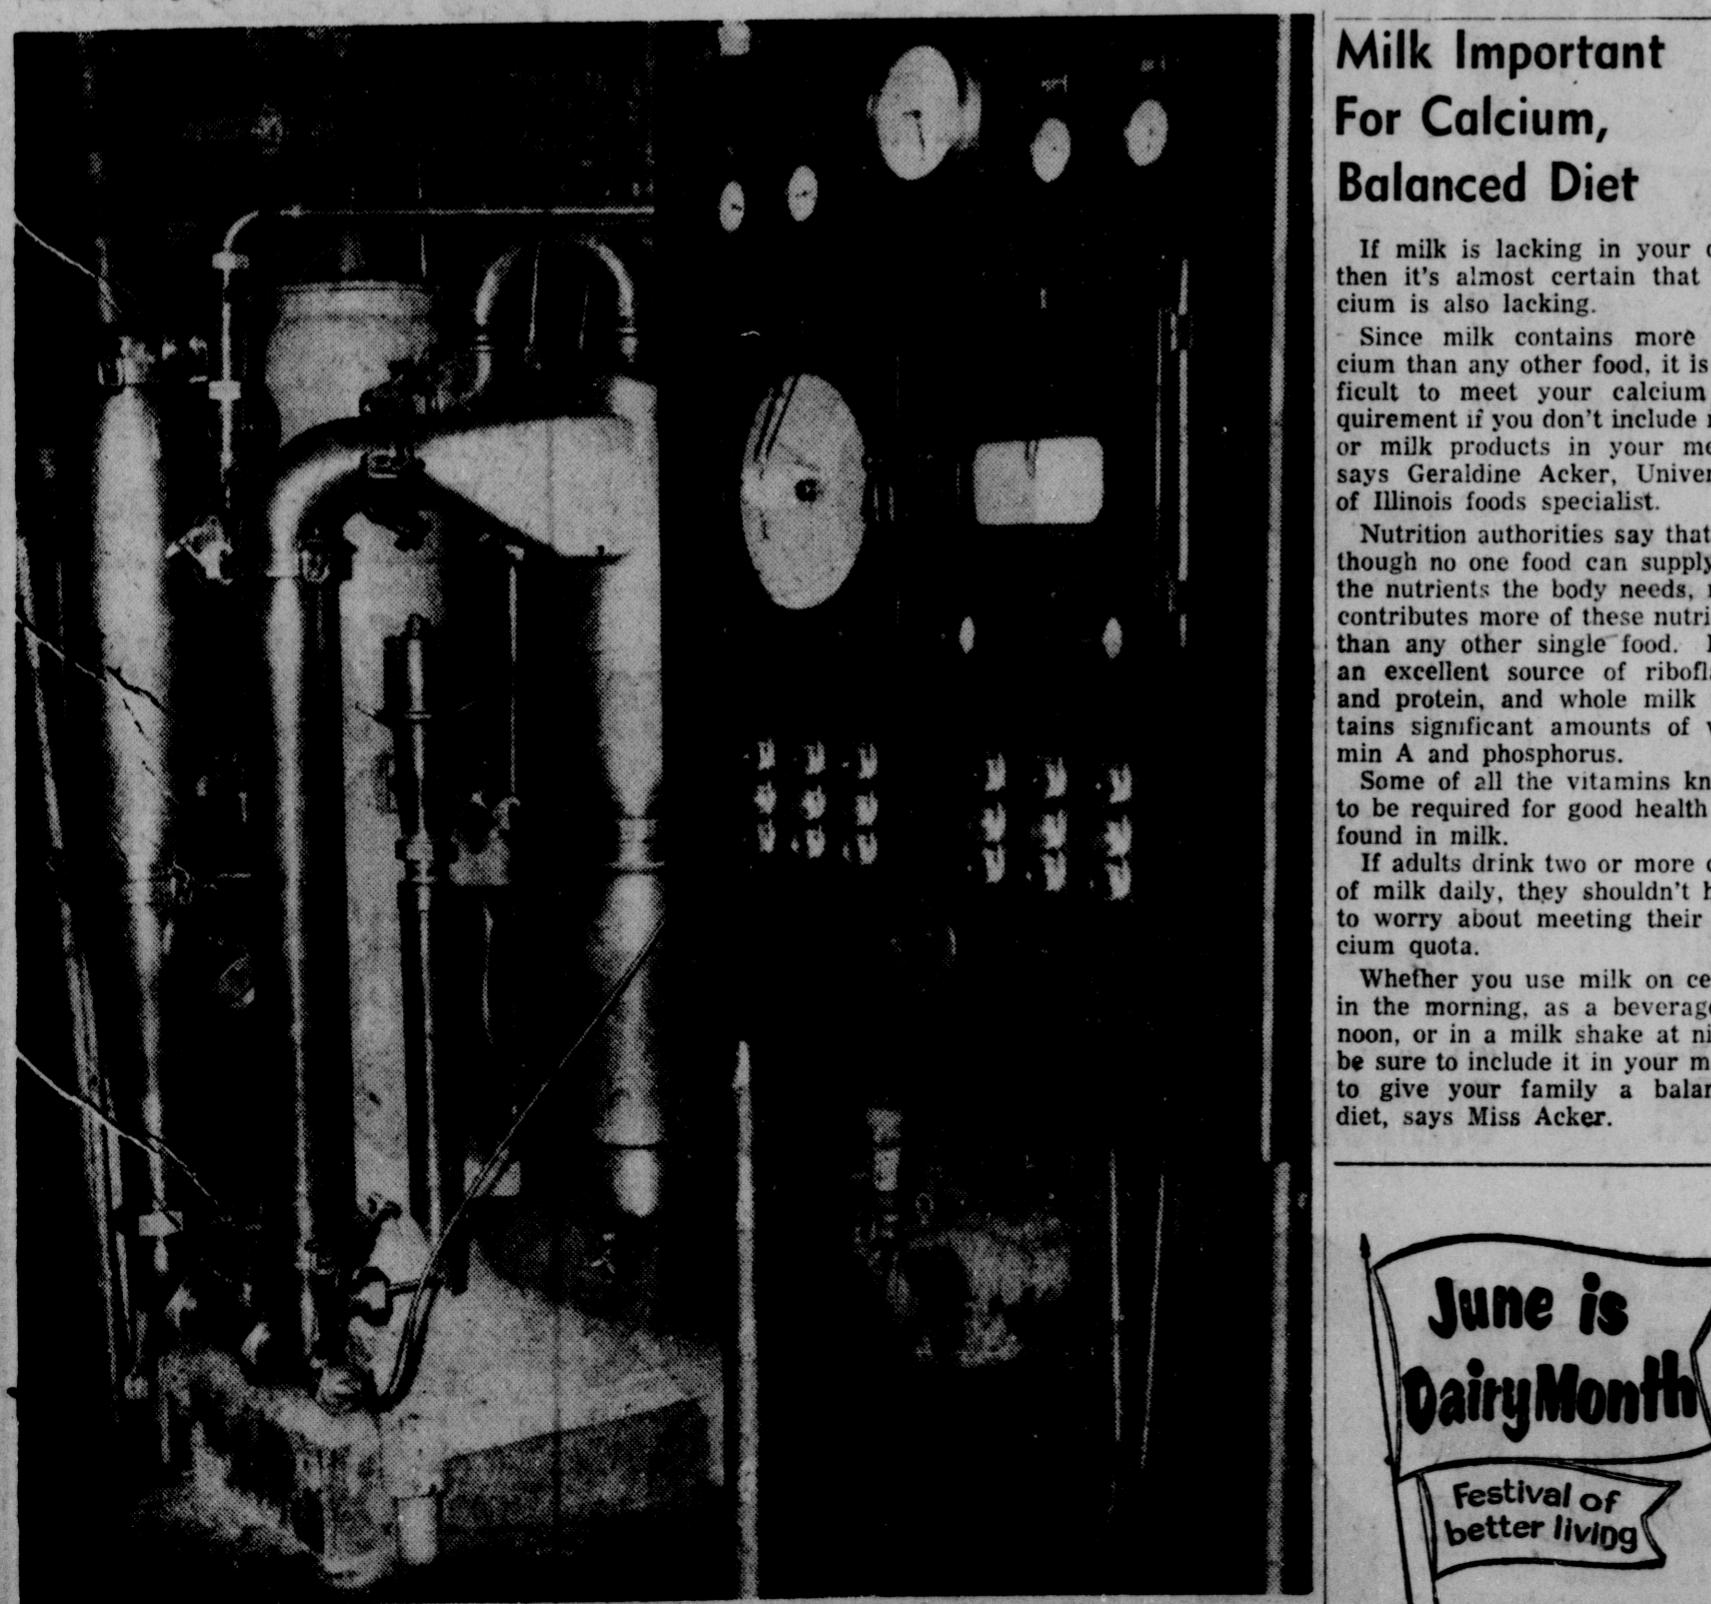

THE FLYING MILKMAN, CONNIE ZIEGLER, is one of the few route supervisors in the country with an aerial route. With a market area of 13,000 square miles, Harrisburg Dairy can still respond to emergency requests with immediate delivery, fostering

better customer relations. This achievement is particularly noteworthy during June Dairy Month, as a symbol of the rapid progress apparent in the nation's dairy industry.

LIQUID WAX USED IN COATING DAIRY BRAND CARTONS is stored in these two huge 8,000-gallon tanks, being checked here by Harry Woolcott and Roy Thompson. The wax is delivered from the refinery to the dairy in tank trucks, pumped directly to these tanks, and pumped from them directly to the Pure-Pak machines

which coat the cartons with wax, fill them with Dairy Brand milk, and seal them completely automatically. Harrisburg Dairy recently converted to the use of liquid wax from a slab wax operation, in which they had to melt the wax as it was needed.

THE CONSISTENT QUALITY OF DAIRY BRAND MILK from season to season is largely due to the operation performed by this impressive piece of equipment, called a "Vacreator". The machine performs a "flash-pasteurization" process, by which the raw milk is pasteurized in a vacuum, permitting an extremely low boiling point, which in turn prevents damage to vitamins, oxidation of the fats, and change in the normal character of the milk constituents. Harrisburg Dairy was the first dairy in southern Illinois to employ the "Vacreator" process in the refining of its milk.

#### Don't Omit Milk When Reducing

Don't omit milk products when you want to reduce.

Many women and girls believe that milk is fattening, so they omit it from reducing diets. But this is a mistaken idea, since all nutritionally sound reducing diets include milk and milk products, says Harriet Barto, University of Illinois dietetics instructor.

Only diets supplying more calories than your body can use are fattening—not any one food. Miss Barto says it is a common food fallacy to consider that milk is a "fattening" food. It is not.

In fact, many cuts of meat contain two or three times as much fat per serving as a cup of whole milk.

Research studies show that milk furnishes more calcium than any other food. In addition, all the vitamins that are known to be needed by man for good health are found in milk. And milk also furnishes high-quality proteins.

In planning a reducing diet, include foods that are rich in minerals, vitamins and high-quality protein but low in carbohydrates and fats. Since even whole milk has less calories than many other good sources of protein and vitamins, be sure to include milk in low-calorie diets, says Miss Barto.

#### Restaurants Seized For Taxes Reopen

MARION, Ill. — Two restaurants owned by Frank Hampton of Marion reopened today after settlement of federal tax claims against Hampton. The government had taken possession of the restaurants in Marion and Herrin because Hampton owed \$1,900 in federal income withholding taxes. An Internal Revenue Service agent said Hampton settled the tax account earlier this week.

#### STORING COTTAGE CHEESE

Keep cottage cheese in glass containers away from strong light to prevent oxidation. Cottage cheese is very perishable; keep it covered (to prevent absorption of other odors and flavors) and in coldest part of refrigerator.

For Breakfast, Lunch or Supper...  
Featherlight Pancakes

Pancakes on parade — for breakfast, lunch, or supper. These are easy, different, and delicious! Exciting with syrup or fruited sauces, they become gourmet cuisine when served with a creamed chicken topping.

Light, but lady, they're loaded! Loaded that is with proteins, from nonfat dry milk, cheese, and eggs—proteins needed by everyone in the family, every day.

**FEATHER-LIGHT PANCAKES**

1/2 cup nonfat dry milk  
3 tablespoons water  
4 separated eggs  
1 cup sieved cottage cheese  
1/2 teaspoon salt  
1/2 cup sifted flour

Place water in bowl. Add nonfat dry milk and beat until mixture stands in peaks. Add all ingredients except egg whites. Mix until smooth. Beat egg whites until stiff. Fold into first mixture. Drop on hot buttered griddle. When golden brown, turn and bake on other side. Serve with syrup, jelly, or fruit sauce.

These are high in food value and delicious.

The ingredients may be combined in a blender in which case it will not be necessary to sieve cheese.

**Tall Drifter**  
By W. Edmunds Claussen  
Cop. 1956 by W. Edmunds Claussen. Distributed by NEA Service, Inc.

**THE STORY:** Partly to learn if Emmett Cash is a horse thief and partly because Emmett saved his life, Frank Ude goes to Cashtown. He has met a young woman named Jean who admires his horse. Frank, who had had an unfortunate experience once with a girl, tries to avoid friendship with her.

V

The cook brought him his slice of beef and potatoes and he pitched into it like a man long without food. Back on the Anchor a woman had taught him distrust of her kind. She had sworn to be faithful and he had believed in her love. It still gave him a mental lashing to recall the day he had ridden down to the river and found Janet, in another man's arms. Frank turned the horse he was riding slowly homeward, killing rage over him, and yet relieved to have discovered the truth.

Old man McCarty was a boss to frown on an indiscretion. When his daughter came to Frank later he told her there could be nothing further between them. Her passion changed her into an unpredictable demon. She turned old Buck against him in as bitter a piece of lying as Frank ever ran across.

Old Buck McCarty had waited for him that night as he returned to headquarters. It made Frank's mouth pinch in tighter at the corners now to remember that fight. The cold sweat stood against his brow; he lifted hand and wiped it away. He hadn't meant to come so close to killing McCarty that night. An old man, and the best friend he had ever known.

Frank tried until the very last to pacify Buck. When Buck's gun exploded he had his hand over the barrel, turning it aside. The powder blast set his trousers afire. Still the old man wouldn't let him go. He cracked Frank across the face with a fist that was as hard as the sole of his boot.

Janet stood pressed tight to the bunkhouse wall with her rejected love showing like livid scars that it had become, "Go ahead, kill him, Dad!"

Frank struck. All the sudden revulsion against Janet's distorted features, all the hatred of her lie was packed in the fury of his blow. It hadn't ended until McCarty himself lay sprawled on the yard. Then Frank saddled up, lashing his belongings fast to his saddle strings. Janet stood beside the corral with her head lowered throughout his packing.

At the last Frank turned to her, trying to hold the emotions out of his voice. "Buck gave me the gelding two years ago. Tell him I'm taking him—but don't tell him how you've lied!"

She lifted her head letting him see tears running down her face. In a moment she had come away from the fence and locked her arms around him. "Take me along, Frank. I made a mistake. Take me—"

He broke her hold roughly and threw himself into his saddle. As he rode away he could hear the sobs that were racking Janet's body.

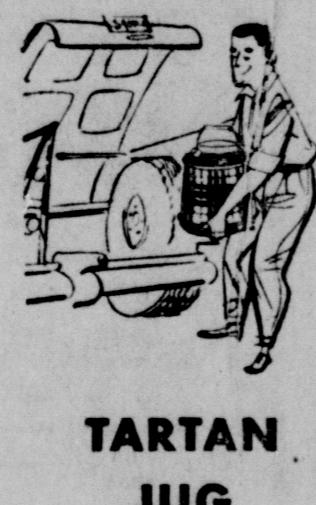

The girl who sang in Norring's saloon was named Lily Arnette. From some mysterious place in her past she brought a strange and magnificent talent for music that held the Alhambra patrons enthralled. As she crossed the dust of Cashtown's street she had not missed the slim man standing beside

Two Mistakes in Same Place is a Mistake

BUFFALO, N. Y. — It was a sad day for Howard F. Todd of Marion, Ind., when he drove his truck across a double line on a highway in nearby Blasdell.

When Todd appeared before Police Justice Leonard H. Busch for the minor violation, it jogged Busch's memory. He remembered fining Todd \$100 four years ago for failing to have his tractor trailer marked with weight figures.

Todd paid by check, the check came back marked "account closed," and the fine never was paid.

Busch made sure this time. Todd was allowed to go on his way, but only after shelling out a total of \$105 in cash, including a five-dollar fine for the violation that brought him before Busch for the second time.

The girl who sang in Norring's saloon was named Lily Arnette. From some mysterious place in her past she brought a strange and magnificent talent for music that held the Alhambra patrons enthralled. As she crossed the dust of Cashtown's street she had not missed the slim man standing beside

# When Poppa Makes the Salad

When Poppa makes the salad, you can be sure of a good one, assuming of course that Momma gives him a free hand and no advice.

Here's how Poppa can make a tossed salad that will take the spotlight when guests come to dinner.

**POPPA'S BLUE CHEESE DRESSING AND SALAD BOWL** (enough for 8 hearty salad servings)

**Have on hand. You'll need for the making:**

Large bowl of crushed ice  
Small bowl for dressing  
Salad fork and spoon

Large dish or bowl for salad  
You'll need for the salad:

Salad greens. Have several.

There are many to choose from—lettuce of several varieties, watercress, chicory or American (curly) endive, French endive, romaine, green celery tops,

minced parsley, young raw spinach, Chinese cabbage, green or red cabbage, young beet greens.

Firm ripe tomatoes, hard-cooked egg, peeled avocado, artichoke hearts, sweet onion rings—any or all. Garlic croutons.

**You'll need for the dressing:**

1 cup Blue cheese  
1/2 cup (about) cream, light or heavy  
1/2 teaspoon dry or prepared mustard

1 teaspoon Worcestershire sauce  
1/4 teaspoon salt  
1/4 teaspoon paprika

Pepper, preferably coarsely ground

4 tablespoons wine vinegar or mild cider vinegar

1/4 cup olive oil

**To do in advance:**

1. Prepare salad greens. Have these clean, dry and crispy cold.

2. Have other salad ingredients chilled.

3. Chill salad bowl if possible. Salad plates too.

4. Prepare garlic croutons. Heat before using.

**GARLIC CROUTONS**

Cut bread into very small cubes, leaving crusts on. Place in shallow pan and toast in a slow oven (275° to 300°) till golden brown or heavily browned.

5. Measure and stir in olive oil.

6. Mix well. It's ready to pour onto the salad.

7. Pour on the dressing. Toss lightly.

8. Sprinkle croutons over the top.

9. To serve, carefully lift a portion onto each plate.

P.S. You may have more dressing than you need. Put in a covered jar and use it on mixed greens or sliced tomatoes tomorrow night.

Or cut the recipe in half. It's smart to taste and experiment till you get just what you like!

If you want to make a meal of the salad, add strips of cooked chicken, turkey or ham.

## Farewell Party Held at Bankston Church for Rev. Paul Dann and Family

A farewell party was given Monday night at Bankston church for the Rev. Paul Dann and his family who are moving to West City where Rev. Dann has been called as pastor of the church there.

At seven o'clock the group met and a bountiful meal was spread in the church basement. The tables were decorated with sweet peas and roses. Mrs. Fern Boatright, Mrs. Mamie Fife, Mrs. Edna Abney and Mrs. Mable Cash composed the committee in charge.

A reading was given by Mrs. Anna Thompson and a number of solos, duets and quartets were sung throughout the evening. A talk was given by one of the senior deacons, W. H. Pankey.

The Danns were presented with a lovely array of gifts. After they had unwrapped the gifts and had so graciously thanked everyone, C. C. Hamilton, choir director, asked the group to sing "God Be With You" and each one extended the hand of fellowship and wished them much happiness and success as they go to their new church.

Those present were: Rev. and Mrs. Paul Dann, Mr. and Mrs. Lowell Evans, Mr. and Mrs. Everett Evans, Mr. and Mrs. C. C. Hamilton, Mr. and Mrs. W. H. Pankey, Mr. and Mrs. Jess J.

## PUBLIC SALE

## Pointer for Picnickers: Prepare the Easy Way

Picnics are one of those special summertime treats that serve to compensate for the stress of the sweltering days of the summer season.

While a picnic is an occasion to be enjoyed by the whole family, many times it turns out to be enjoyable for everyone except Mom, who has to do the cooking.

But she can have fun too if the menu is built around easy-to-prepare sandwiches and cookies served with plenty of ice-cold milk.

For easy sandwiches, take cheese as the basis. Most every cheese lends itself well to sandwich-making, and can be used

alone or in combination with meat or other cheeses.

Stir up a batch of butter pecan bars to take along as picnic cookie fare. These pecan bars have a tempting flavor that comes from the butter that's used in them.

**BUTTER PECAN BARS**

3 dozen  
9-inch square pan  
350° preheated oven  
30-40 minutes  
2 eggs  
1 cup brown sugar  
1 cup granulated sugar  
3/4 cup melted butter  
1/4 cup sifted flour  
1 cup chopped pecans  
1 teaspoon vanilla

alone or in combination with meat or other cheeses.

Stir up a batch of butter pecan bars to take along as picnic cookie fare. These pecan bars have a tempting flavor that comes from the butter that's used in them.

**BUTTER PECAN BARS**

8 sandwiches  
1/2 cup (1 stick) softened butter  
1/2 cup chopped celery  
1/2 cup pickle relish  
1 7-oz jar dried beef  
8 slices sharp Cheddar cheese

Mix softened butter, celery, and pickle relish. Spread on bread or rolls. Fill with several slices of dried beef and a slice of cheese. These sandwiches can be served hot. Spread rolls with butter mixture, top one side with dried beef and sliced cheese. Place under broiler until cheese melts and bread is toasted.

### Bordon Store

Mr. and Mrs. Walter Wilhite of Elgin, who are employed at the state hospital, are on a two weeks' vacation and are visiting with Mrs. Edna Daniel and her brother, Abe.

Mrs. J. B. Cisco and her sister, Miss Allie Mitchell, attended the funeral of their cousin, Elmer Carter, in Johnston City.

Mr. and Mrs. Jake Milstead and Mr. and Mrs. Joe Bordon attended a ball game Sunday. It was a

double header played by the Cardinals and Phillies.

Mrs. Lee Peyton was released from the Lightner hospital Saturday.

Mr. and Mrs. Bill F. McIlrath and family and Mrs. Grover Clayton motored to Morganfield, Ky., Sunday.

Mr. and Mrs. Arthur Brown and Mr. and Mrs. A. C. Pritchett of Benton attended the funeral of their aunt, Mrs. Sarah RaMange, of Smithland, Ky.

A fish fry was enjoyed at Cave-

in-Rock Thursday by the following: Mr. and Mrs. Herman Malone, Mr. and Mrs. Charles Malone, and daughter, Nancy, and Mr. and Mrs. William Ure and son, Marty, of Oklahoma City, Okla., who are spending their vacation here with Mrs. Ure's parents in Herrin.

Mrs. Eva Golliher, Mrs. Mabel Hayes and her father, J. T. Golliher spent the week end with Mr. and Mrs. Orville Golliher in Greenup, Ill.

VERDUN REMEMBERED—The 40th anniversary of the bloody World War I Battle of Verdun is commemorated in this new French stamp. To be issued in March, the 30-franc stamp is blue and yellowish brown. Over a million soldiers died in the long fighting in the Verdun sector. French resistance to the Germans gave rise to the famous motto, "They shall not pass."

Insurance Firm Pays Mother More Than Sum Sought

CHICAGO — An insurance company reported today it paid \$6,500 to a Seattle, Wash., mother who had filed a claim for only \$2,500 in the accidental death of her son in Japan.

The boy, William R. Erickson, 18, was killed in a train accident Oct. 19 in Japan, where his step-father was stationed in the Army. The boy's two \$2.50 policies with Combined Insurance Company of America had expired 15 days earlier.

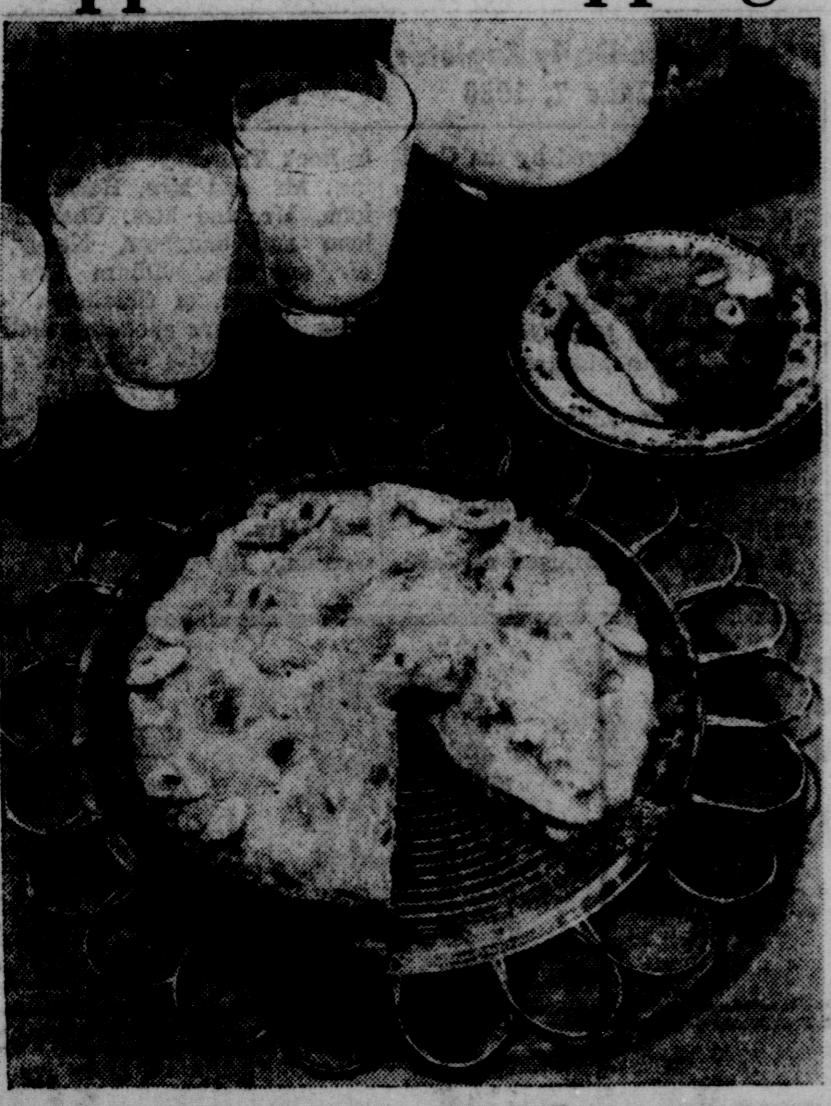

His grandmother, Mrs. W. C. Little, Anacortes, Wash., had converted these two policies into a \$7.50 policy, however. His mother, Mrs. Bernice Richardson, Seattle, filed a claim for \$2,500 with Combined Insurance, basing it only on this \$7.50 policy.

However, the company said the two \$2.50 policies still were in effect, since they carried a provision for a 30-day grace period. So recently the firm paid Mrs. Richardson \$6,500—\$2,500 on the \$7.50 policy, and \$4,000 on the other two.

Made of Indian Trails The Santa Fe Trail was the overland route used by explorers and traders from Independence, Missouri, to Santa Fe, New Mexico. It was not a clearly defined road, but a combination of Indian trails.

## Cheesecake Pie with Apple Sauce Topping

When guests gather for laughter and talk, crown the occasion by bringing out this cheesecake pie. Or when you wish to offer a special treat to the family, trot out this pie. It's a golden, melt-in-the-mouth treat that will be welcome any time.

### CHEESECAKE PIE

6-8 Servings  
325° preheated oven, 60 minutes  
9-inch pie plate  
½ 6-oz. package zwieback  
2 tablespoons sugar  
1 teaspoon cinnamon  
2 tablespoons melted butter  
2 cups creamed cottage cheese, sieved  
2 eggs  
½ cup sugar  
½ cup heavy cream  
Few grains salt  
2 tablespoons flour  
1 teaspoon grated lemon rind  
1 tablespoon lemon juice  
2 cups canned apple sauce  
2 teaspoons grated lemon rind  
2 tablespoons lemon juice  
¾ cup chopped almonds  
Whole salted almonds  
Roll zwieback into fine crumbs with rolling pin. Combine crumbs, 2 tablespoons sugar, cinnamon and melted butter. Mix well. Pack crumb mixture into 9" pie plate. To cottage cheese add eggs, one at a time, beating after each. Add ½ cup sugar, cream, salt, flour, 1 teaspoon lemon rind and 1 tablespoon juice. Beat until smooth. Pour into crumb lined pan. Bake in 325° preheated oven for 60 minutes, or until firm. Cool. Combine apple sauce, 2 teaspoons grated lemon rind, 2 tablespoons lemon juice and chopped almonds. Spread on top of cheese filling. Garnish with whole almonds.

## To Honor Colby, Buford at SIU Commencement

CARBONDALE, Ill.—Dr. Charles C. Colby, "Dean of American Geographers," and John Lester Buford of Mt. Vernon, president of the National Education Association, will be honored at Southern Illinois university commencement exercises here June 17. Dr. Colby, former acting chairman of the SIU geography department, will be awarded the honorary degree of Doctor of Science and Buford, now on leave as superintendent of Mt. Vernon schools, will receive the Distinguished Service Award.

A professor emeritus of the University of Chicago, Dr. Colby served as distinguished visiting professor at SIU for six months during 1951, returning as acting chairman of the department during the 1953-54 school year. He is currently visiting professor at the University of Kansas and since his retirement in 1949 also has lectured at the University of California and University of Illinois.

Dr. Colby served in the University of Chicago geography department for more than 30 years. He was educated at Michigan State Normal college and the University of Chicago, receiving his doctoral degree in 1927.

The 72-year-old pioneer in urban geography is regarded as one of the world's leading authorities in the geography of North America.

From World War I to the present, Dr. Colby has served on many high level advisory commissions and planning agencies of the government, including the U. S. Shipping Board, War Shipping Administration, Tennessee Valley Authority, Natural Resources Planning Board, and National Resource Council.

Dr. Colby has written extensively in the field of economic geography, and a study of the Southern Illinois area, completed while he served on the SIU faculty, is due to be published in the near future.

Buford was elected president by a unanimous vote at the NEA's annual convention last year. A graduate of SIU, he received his master's degree from the University of Michigan. "Man of the Year" for 1951 in Mt. Vernon, he holds honorary degrees from McKendree college and Illinois Wesleyan university.

The two men will be honored at exercises for SIU's largest graduating class, with over 600 candidates eligible for degrees. The ceremonies begin at 7 p. m. in McAndrew Stadium.

## Young and Old Both Need Calcium

Adults and elderly folks need calcium as much as growing youngsters do.

Even though the body has stopped growing, the calcium and protein needs have not stopped, and milk is an excellent source of these nutrients, says Harriet Barto, University of Illinois dietetics instructor.

If there isn't enough calcium in the diet, the blood must take it from the bones to use in other parts of the body. Older people whose bodies are deficient in calcium often have brittle bones than can break easily and will be slow to mend.

Calcium is also an important element in the clotting of blood. And it helps to regulate the heart beat and keeps the nerves in good condition.

Milk contains top-quality proteins, so older folks can get some of their daily protein quota by drinking milk and eating milk products.

Three cups of milk will supply three-fourths of the calcium, four-fifths of the riboflavin, and nearly one-half of the protein needed daily by the body. Nutritionists recommend that adults drink at least two cups of milk each day.

### MORE MILK

To increase milk in your diet, cook cereals in milk or make milk toast or French toast for breakfast. For lunch or dinner, use milk in soups or chowders; cheese in custards, fondues and soufflés; creamed chicken, eggs, dried beef; creamed or scalloped vegetables; and desserts, such as cream and custard pies, milk sherbets, custards and puddings.

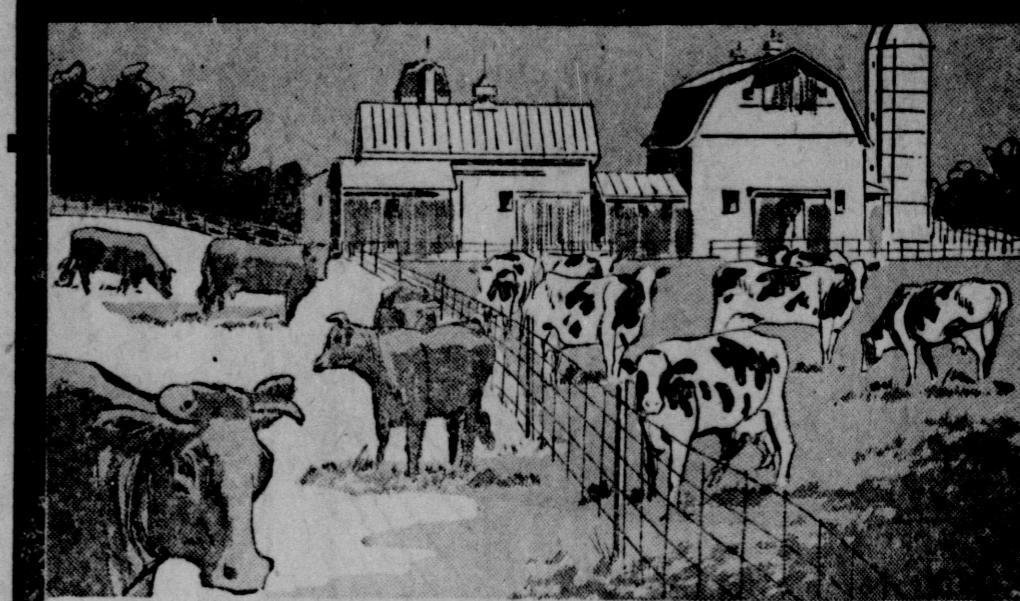

### HOW MUCH MILK?

The following daily amounts of milk are recommended: for children, three to four cups; teenagers, one quart or more; adults, two or more cups; pregnant women, four or more cups and nursing mothers, six cups.

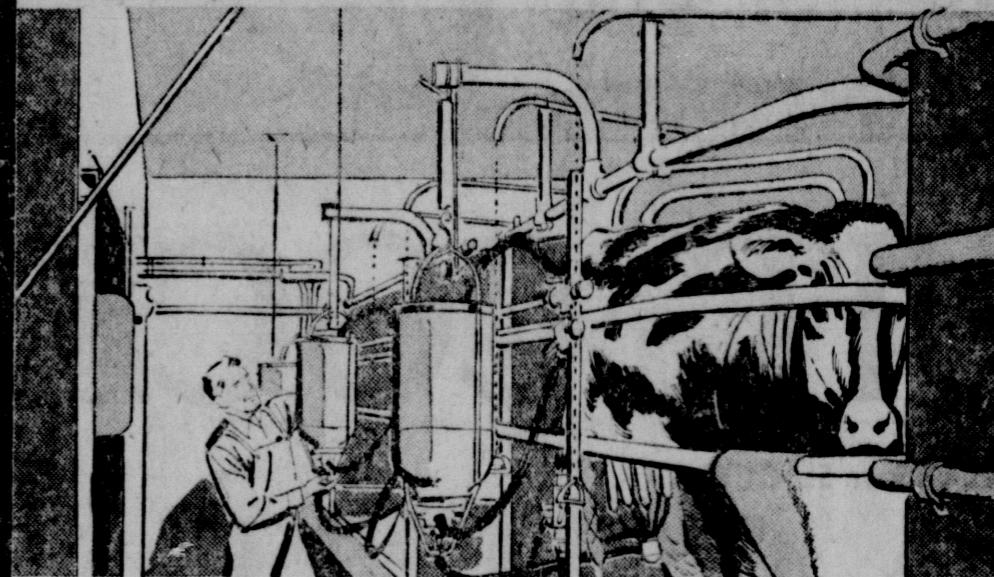

# How dairy foods come to you—fresh from the farm!

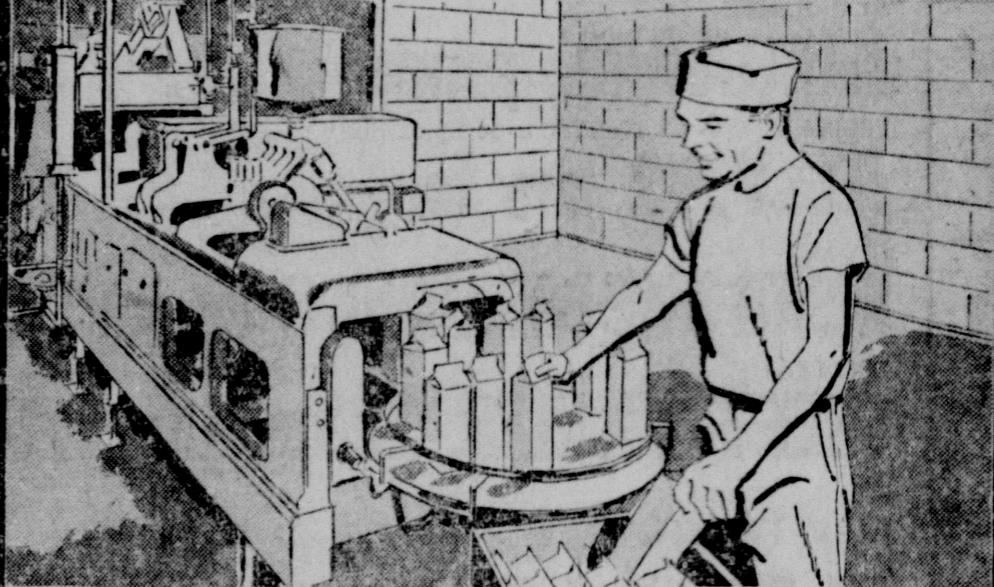

And Why They're So Wonderfully  
Abundant During June

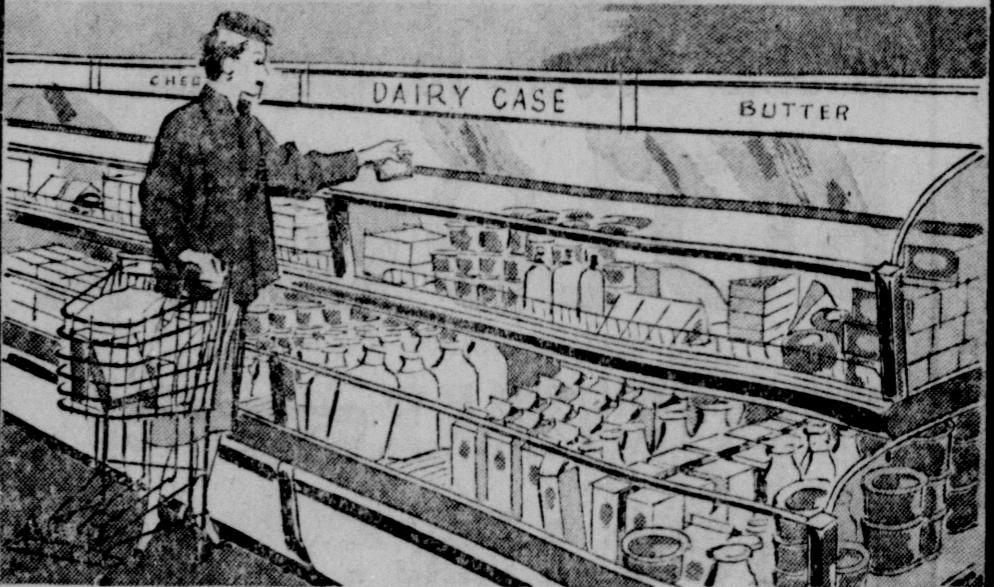

The fresh and bountiful flow of milk from the farm to your table begins anew every day at "milking time" in the nation's dairy barns. Last year the country's 22 million cows produced 56 billion quarts of milk.

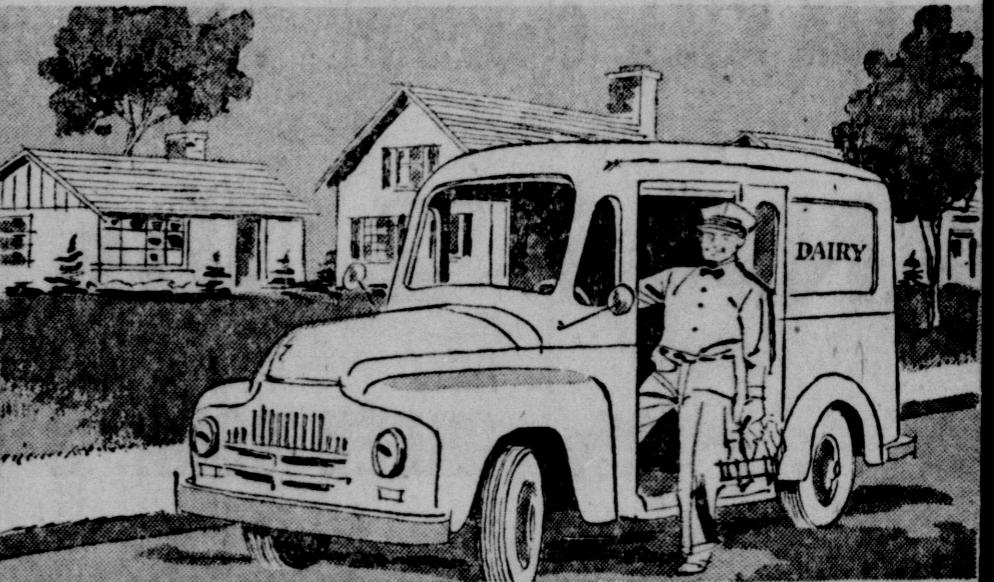

On many of today's modern farms, cows are milked by machine in "parlors." The milk is immediately cooled to retain its flavor, freshness and quality. From the farm it is transported in sealed trucks to dairies and processing plants.

At the dairy—spotless as a hospital—milk flows from the pasteurizing tanks to bottling and packaging machines through sanitary piping—unexposed to air. Every precaution is taken to preserve the farm-fresh quality of the milk.

Over half of the milk produced is used for drinking or cooking. The remainder is made into a variety of flavorful dairy products: butter, cheese, ice cream, evaporated milk, cottage cheese and nonfat dry milk.

At your doorstep, or in stores' dairy cases, dairy foods are delivered to lend farm-fresh goodness to your meals. America is a "milk-drinking nation," the world's healthiest.

### "OF ALL FOODS, NONE IS MORE IMPORTANT THAN MILK"

June emphasizes the true goodness and smart thriftiness of serving milk to your family all year long. As the U. S. Public Health Service points out: "Of all factors of man's environment, none is more important to his welfare than food. And of all foods, none is more important than milk."

If you're the average home maker, this year you'll wisely spend about 15¢ of your grocery dollar on dairy foods. But in return, you will receive double that—30¢ worth in nourishment!

June is Dairy Month! The Best month of all

for you and your family to enjoy the flavor, the healthful nourishment and economy which is yours in milk and "food made from milk."

THIS MONTH and EVERY MONTH,

# ENJOY *Dairy Brand* MILK!

A PRODUCT OF ONE OF AMERICA'S FINEST DAIRIES
